V > 22

Many years of development have finally resulted in our long-awaited new high-end rubber.

Numerous top players were involved in its development and contributed directly to its unbelievable speed and great spin potential.

VICTAS V>22 Double Extra

22

Double Extra

V>22 Double Extra

MAX 2.0 64,90€

Hardness	50,0±3	red black blue
SPEED	9,6	
CONTROL	8,0	
SPIN	9,1	
TRAJECTORY	6,7	
SHEET STRENGTH	9,0	

Are you ready for the next level of rubber innovation? Numerous top players like Koki Niwa and Liam Pitchford were involved in many years of development leading to V > 22 Double Extra, a rubber offering almost unbelievable speed and spin ratings. The new Select top sheet guarantees perfect coupling of the ball, while the optimized, open-pore sponge design additionally supports powerful, speed-reliant attacking styles. Despite its unrivalled power, the high stability of V > 22 Double Extra enables highly precise placement of your own attacks.

V>20 Extra

MAX 2,0 57,90€

Hardness
47,5±3 ■ red ■ black

SPEED	9,2
CONTROL	8,5
SPIN	9,2
TRAJECTORY	6,8
SHEET STRENGTH	7,2

V>20 Extra is a modern hybrid offensive rubber that combines the grip of Chinese pimple geometry with the catapult of European tension technology. This innovative hybrid technology with shorter pips guarantees perfect coupling of the ball which results in great precision and forgiveness at unbelievable spin ratings. Vigorous attacking power and reassuring precision - a combination that will be dreaded by your opponents. The 47,5° sponge, which is slightly softer than the V>20 Double Extra, provides optimized dynamics and noticeably more elasticity.

SPEED	9,4	
CONTROL	8,1	
SPIN	8,8	
TRAJECTORY	7,4	
SHEET STRENGTH	9,2	

The ultimate weapon for aggressive offensive players! V > 15 Extra is a high-end offensive rubber which will enable you to perform on a new level in topspin rallies. Feel the ultimate power and high efficiency energy conversion of the innovative 47.5° offensive sponge and experience the unlimited potential of the spin-optimized top rubber sheet! Demanding offensive players who rely on aggressive topspins as well as topspin-to-topspin rallies will take their play to a new level with V > 15 Extra!

V > 15 Stiff

MAX 2,0 52,90€

Hardness	45,0±3	■ red ■ black
SPEED	9,3	
CONTROL	8,2	
SPIN	9,0	
TRAJECTORY	6,7	
SHEET STRENGTH	8,8	

The ultimate weapon for offensive players - uncompromising speed and spin! V > 15 Stiff combines the power of V > 15 Extra with the spin potential and elasticity of V > 15 Limber. The special, newly developed 45° offensive sponge sets a new bench mark for ambitious attackers relying both on aggressive power table tennis and well-placed spin variants. Thanks to the efficient energy conversion and excellent playing balance of V > 15 Stiff, speed-oriented players have all they need to enter the next level!

V > 15 Limber

MAX 2,0 52,90€

Hardness	40,0±3	■ red ■ black
SPEED	9,0	
CONTROL	8,3	
SPIN	9,0	
TRAJECTORY	7,2	
SHEET STRENGTH	8,8	

The ultimate weapon for spin-oriented offensive players! V > 15 Limber is an elastic high-end offensive rubber with excellent spin features and catapult effect. Feel the power and elasticity of the soft 40° offensive sponge and experience the enormous spin potential of the innovative top rubber sheet! Modern offensive players who rely on spinny, variant rich topspin play will enjoy a whole new dimension of opportunities with V > 15 Limber!

V > 11

V > 11 Extra

OFF rubber with VICTAS
„Lightning Tension“ technology

The „Lightning Tension“ technology is based on the proven „High Energy Tension“ technology. Thanks to the innovative material composition, V > 11 is approx. 10% lighter at the same performance level. Energy transfer to the ball is maximized and top players of all generations can use this advantage for their playing style.

V > 11 Extra

MAX 2,0 52,90€

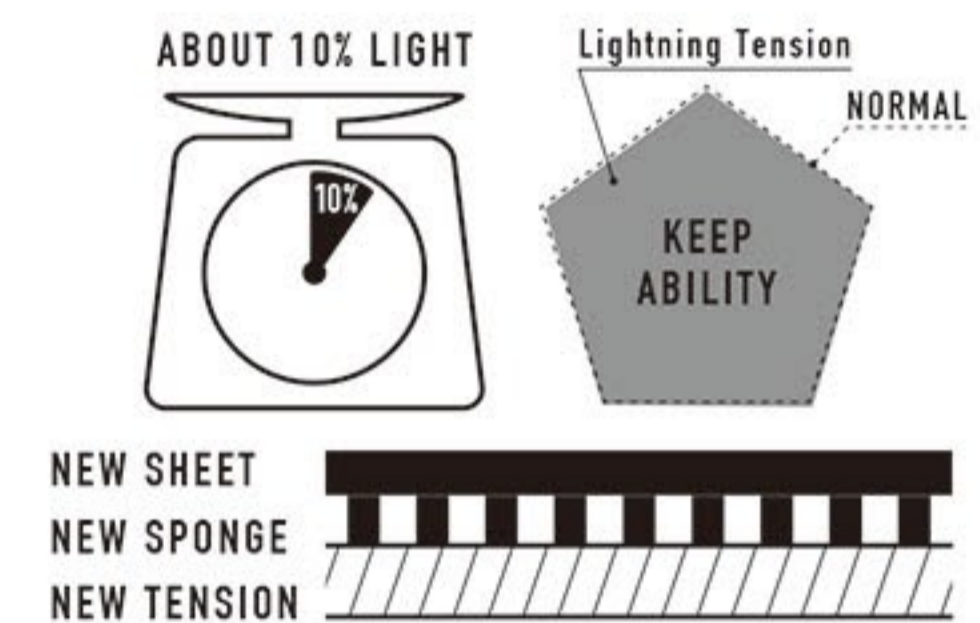

Hardness	47,5±3	■ red ■ black
SPEED	9,3	
CONTROL	8,3	
SPIN	8,8	
TRAJECTORY	6,9	
SHEET STRENGTH	9,7	

The V > 11 Extra is an OFF rubber for the new generation of top-level players on the lookout for a new rubber which perfectly combines the features of the V > 15 series with less weight. Thanks to the innovative material composition of the new „Lightning Tension“ design, V > 11 Extra is approx. 10% lighter than V > 15 Extra at the same performance level. The new 47.5° OFF sponge combines power and vigor with excellent feel, and the aggressive spin produced by the optimized top sheet leaves nothing to be desired.

INFO

Thanks to the innovative material composition V > 11 is approx. 10% lighter at the same performance level. Energy transfer to the ball is maximized and top players of all generations can use this advantage for their playing style.

V > 03

V > 03

OFF rubber from VICTAS
with highly balanced features

In modern table tennis, a good trajectory and great spin potential are becoming more and more important. V > 03, however, has even more to offer: great spin and excellent feel.

V > 03

MAX 2,0 1,8 43,90€

Hardness	42,5±3	■ red ■ black
SPEED	8,6	
CONTROL	8,8	
SPIN	8,2	
TRAJECTORY	6,7	
SHEET STRENGTH	8,7	

VICTAS` V > 03 design goal was to create a rubber meeting all requirements of modern table tennis with a great performance potential. The new 42.5° OFF sponge with built-in „High Energy Tension“ technology features excellent sound and catapult effects and high-end speed in hard-hit attacking strokes. The new sponge/top-sheet combination enables great spin production in all kinds of stroke techniques and a high ball trajectory for an excellent feel.

VENTUS

VENTUS Series

The VENTUS success story continues

The long success story of Ventus is continued with the new VENTUS series from VICTAS. All rubbers of this series offer a well-balanced and precise feel, excellent control and second-to-none value for money. Thanks to the innovative "Optimized Rotation Concept" rubber technology and the close cooperation between Japanese product developers and German engineers, the VICTAS VENTUS series has reached the next level of rubber design.

VENTUS Extra

MAX 2,0 / 1,8

47,90€

Hardness
47,5±3

■ red ■ black

SPEED	9,0
CONTROL	8,3
SPIN	8,8
TRAJECTORY	7,7
SHEET STRENGTH	9,0

VENTUS Extra is the flagship of our outstanding Ventus series! Our Japanese material experts succeeded in designing an innovative performance rubber meeting the complex needs of modern topspin players: Maximum spin and speed ratings combined with the excellently balanced playing features that are typical of VENTUS. Players will enjoy the unlimited attacking power and drive offered by the new, pink high-performance sponge, the latest result of our "Optimized Rotation Concept". In combination with the high-energy top rubber sheet, VENTUS Extra provides tons of spin and is just the perfect weapon for dynamic topspin rallies and dangerous serve/return variants.

VENTUS Stiff

MAX 2,0 / 1,8

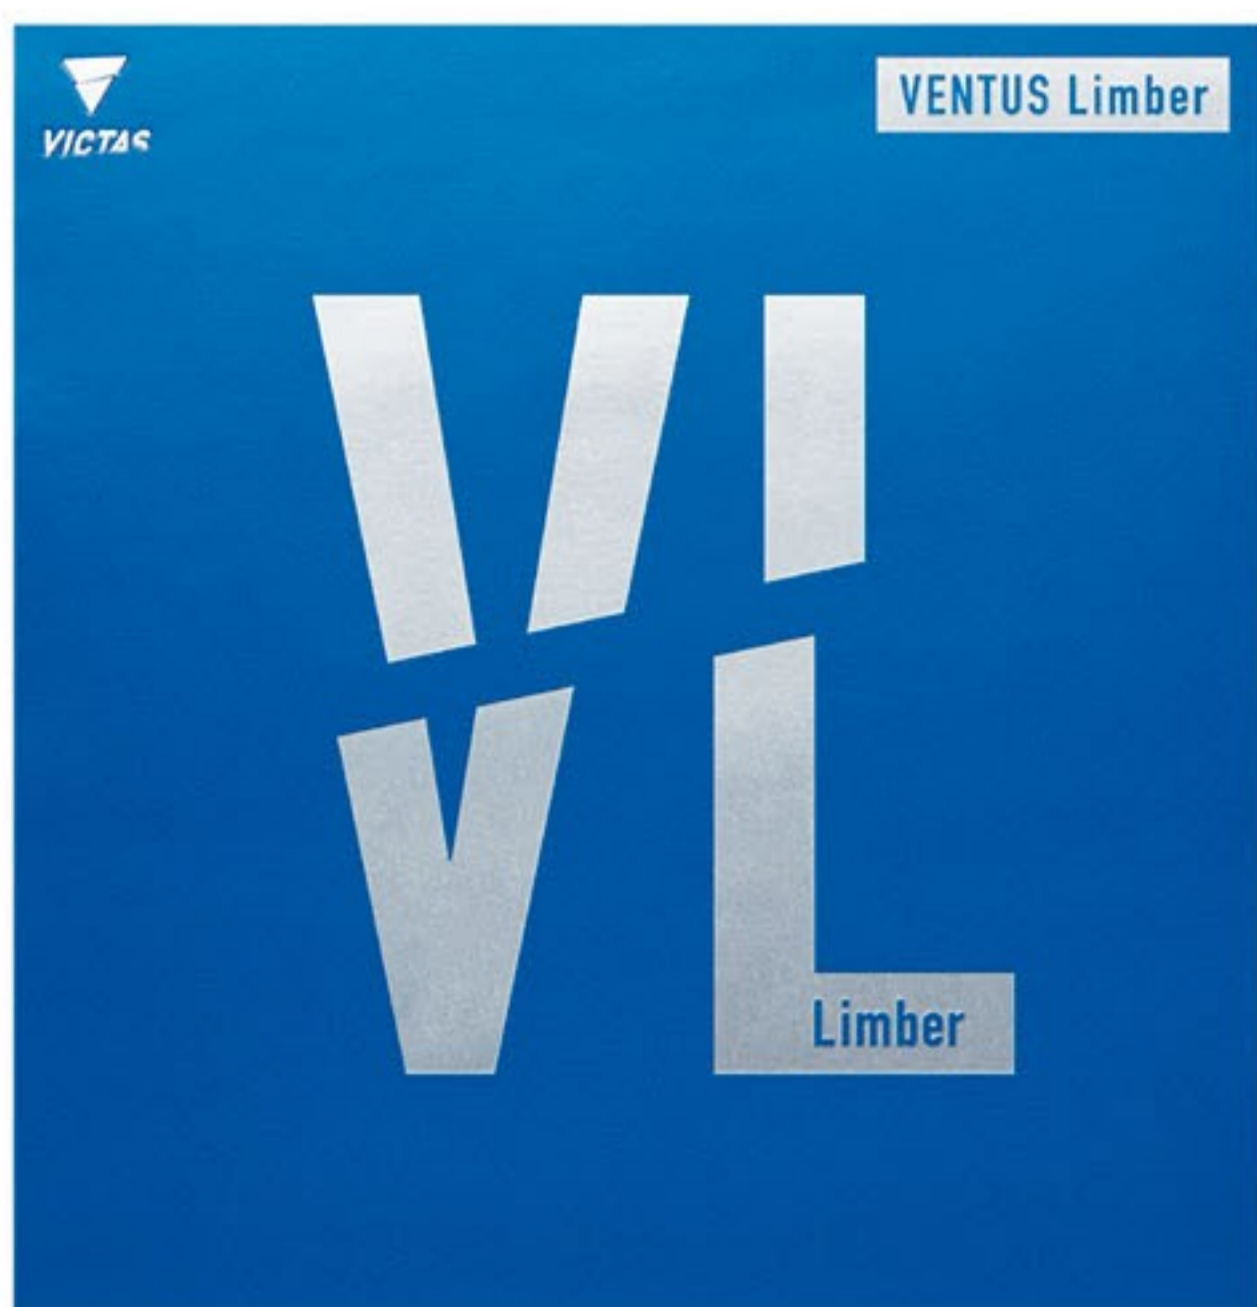

42,90€

Hardness
45,0±3

■ red ■ black

SPEED	8,7
CONTROL	8,6
SPIN	8,6
TRAJECTORY	8,1
SHEET STRENGTH	8,6

When designing the VENTUS Stiff, the Japanese rubber experts focused on perfect balance between high speed, maximum spin development and great control. The open-pore 45° sponge of VENTUS Stiff features the "Optimized Rotation Concept" and is truly made for spin. Thanks the sponge design, this development guarantees longer ball contact which results in more rotational energy transfer on the ball. In addition, the higher trajectory resulting from the "Optimized Rotation Concept" provides for great feel and more control in your play. The fast performance top rubber sheet of VENTUS Stiff develops tons of power and tremendous drive both for aggressive opening loops and mid-distance topspin attacks. VENTUS Stiff is a highly balanced offensive rubber offering great value for money.

VENTUS Limber

MAX 2,0 / 1,8

42,90€

Hardness
40,0±3

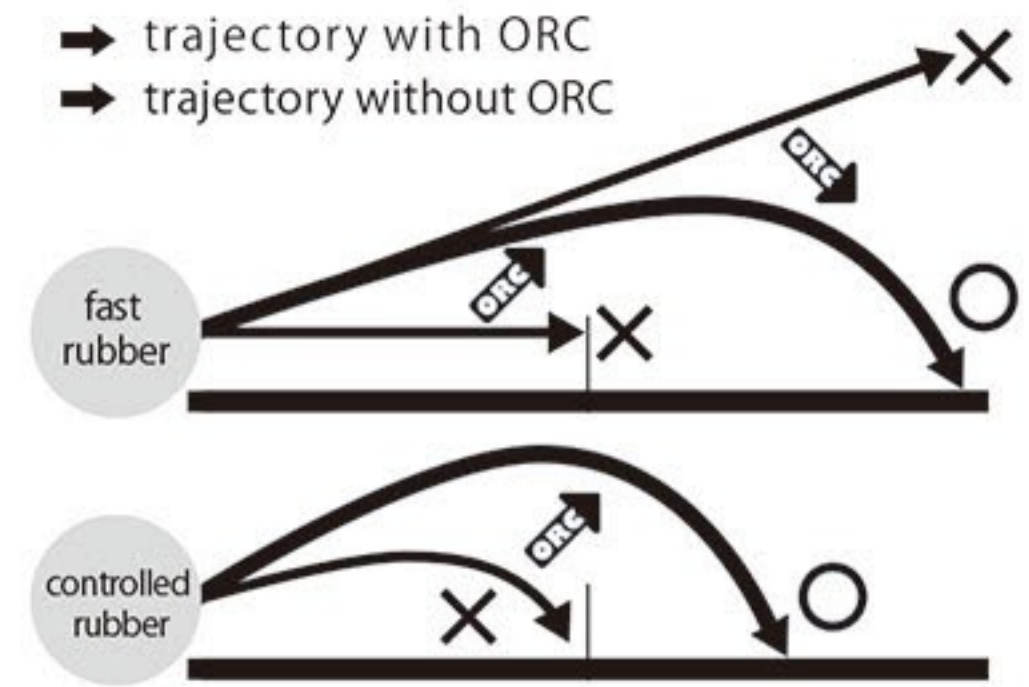

■ red ■ black ■ pink

SPEED	8,5
CONTROL	8,7
SPIN	8,7
TRAJECTORY	7,8
SHEET STRENGTH	8,6

With its open-pore medium sponge, VENTUS Limber is the "golden mean" of the VENTUS series. Powerful mid-distance topspin attacks, dangerous spin loops or controlled close-to-the-table blocking – VENTUS Limber is a real multi-talent among offensive rubbers with well-balanced playing features. The 40° sponge of VENTUS Limber featuring the "Optimized Rotation Concept" provides for a longer ball contact time, and enables you to put your opponent under real pressure with dangerous spin variations and excellent control in blocking. VENTUS Limber is a fun-to-play, high-precision offensive rubber offering great value for money and unlimited room for creativity. Plus, it guarantees excellent control in all situations right from the start, which makes it the ideal choice for players with little time for training.

ORC Optimized Rotation Concept

The VENTUS series features the innovative "Optimized Rotation Concept" rubber technology. This technology with a open-pore sponge design, guarantees longer ball contact which results in significantly more rotational energy transfer on the ball. In addition, the "Optimized Rotation Concept" enables a higher ball trajectory and provides for fantastic control in your play in addition to dangerous spin variants!

VENTUS Regular

2,0 / 1,8 / 1,5 **25,90€**

Hardness **42,5±3** ■ red ■ black

SPEED	7,4
CONTROL	9,6
SPIN	7,9
TRAJECTORY	6,3
SHEET STRENGTH	6,0

VENTUS Regular is the most controllable VENTUS variant for spin-oriented allrounders. The Japanese material experts succeeded in combining the well-balanced features of the popular VENTUS series with an innovative high-control compact sponge. This highly elastic sponge with built-in "Optimized Rotation Concept" provides for a longer ball contact time and excellent spin potential plus perfect balance of speed and control". The tacky top rubber sheet of VENTUS Regular additionally supports spin development and leaves nothing to be desired for modern, variant-rich allround players. VENTUS Regular is a modern allround rubber featuring classic playing characteristics making it the ideal choice for various playing styles.

VENTUS Regular α

2,0 / 1,8 / 1,5 **29,90€**

Hardness **42,5±3** ■ red ■ black ■ blue ■ pink

SPEED	7,6
CONTROL	9,5
SPIN	8,3
TRAJECTORY	6,9
SHEET STRENGTH	6,8

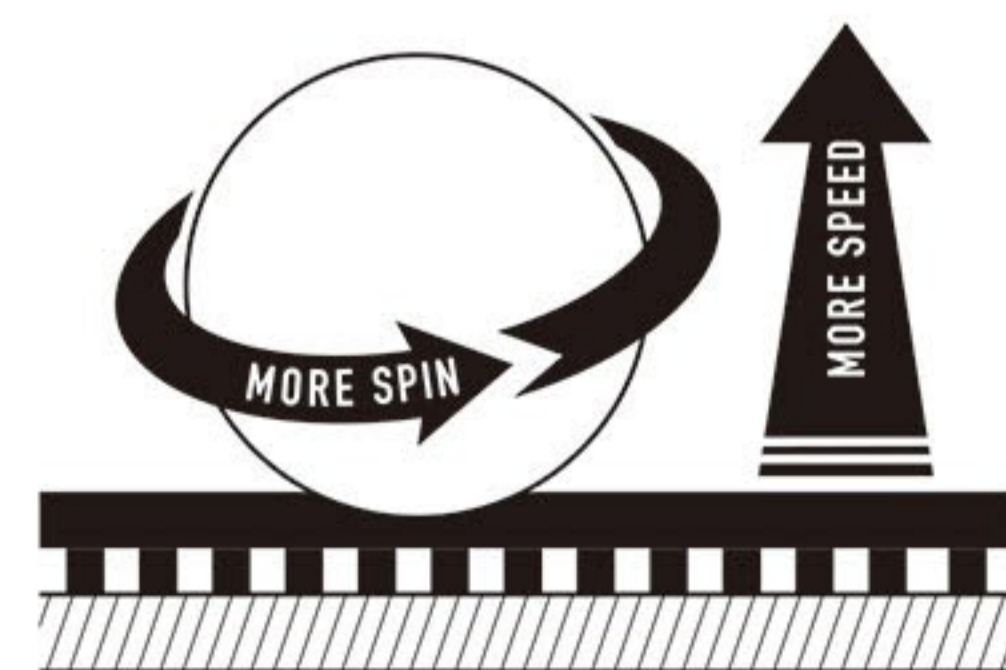

VENTUS Regular α is the updated version of our most popular VENTUS Regular. With its re-designed, even more grippy top sheet which is available in 4 colours, VENTUS Regular α improves your spin potential and is a real booster supporting modern, creative all-round playing styles. The typical highly-balanced VENTUS features, in combination with the proven "Optimized Rotation Concept" of the elastic sponge, provide for excellent ball control and stability for all stroke techniques. VENTUS Regular α meets all the requirements needed to become an absolute classic with an excellent cost-performance ratio, perfect ball control and improved spin potential. It is ideal for young talents looking for a classic high-quality rubber with a modern design to learn the basic stroke techniques.

TOPICS

VICTAS rubber technologies

High Energy Tension is the result of GJ Tec, the cooperation of our German and Japanese development team. The new rubber composition combined with optimized pips geometry gives all VICTAS High Energy Tension top rubber sheets extreme tension and power.

V>01

V>01 Series

„Power & Balance“ concept combines maximum power and precision

It is the mission of VICTAS to provide ambitious players with the best materials possible. After many years of research and development, the German and Japanese material experts (GJ Tec) succeeded in developing a rubber series which meets the high requirements of professionals and will be fun to play by players of all levels alike. The new “Power & Balance” philosophy of the V > 01 series combines the power of topspin bombs with feel and precision in your play, so that you remain in control at all times.

V>01

MAX 2,0 48,90€

Hardness
47,5±3

■ red ■ black

SPEED	██████████ 9,1
CONTROL	██████████ 8,2
SPIN	██████████ 8,4
TRAJECTORY	██████████ 6,4
SHEET STRENGTH	██████████ 6,7

The new “Power & Balance” philosophy of the V>01 rubber combines the power of topspin bombs with feel and precision in your play, so that you remain in control at all times. This sensational feel is the result of the slightly harder, open-pore 47.5° high-performance sponge which provides for a more direct, thus more controlled touch enabling precise placing of the ball. In hard-hit balls (e.g. topspin, smash), the air chambers of the open-pore sponge are compressed, which results in longer ball contact.

V>01 Stiff

MAX 2,0 48,90€

Hardness
45,0±3

■ red ■ black

SPEED	██████████ 9,0
CONTROL	██████████ 8,2
SPIN	██████████ 8,6
TRAJECTORY	██████████ 6,5
SHEET STRENGTH	██████████ 7,1

The open-pore, state-of-the-art 45° high-performance sponge which is slightly softer than in V>01 provides for more control in your play (“Power & Balance concept”). With this new sponge / top rubber sheet combination, V>01 Stiff enables extremely fast and spinny topspin strokes with an aggressive ball trajectory. Especially in middistance topspin rallies, the V>01 Stiff rubber unfolds its full potential.

V>01 Limber

MAX 2,0 48,90€

Hardness
40,0±3

■ red ■ black

SHEET STRENGTH	██████████ 6,7

The open-pore, state-of-the-art 45° high-performance sponge which is slightly softer than in V>01 provides for more control in your play (“Power & Balance concept”). With this new sponge / top rubber sheet combination, V>01 Limber enables extremely fast and spinny topspin strokes with an aggressive ball trajectory. Especially in middistance topspin rallies, the V>01 Limber rubber unfolds its full potential.

VJ>07/VJC>07

VJ>07 Series

Start your way to success
with VICTAS VJ > 07

The VJ > 07 series from VICTAS combines unique feeling with the ultimate quality level "Made in Japan". Redefine your goals and go your way to progress with the VJ > 07 series from VICTAS.

VJ>07 Regular

MAX 2,0 1,8 **39,90€**

Hardness

42,5±3

■ red ■ black

SPEED	7,6
CONTROL	9,5
SPIN	7,9
TRAJECTORY	6,3
SHEET STRENGTH	6,3

VJ>07 Regular is a state-of-the-art and well-balanced allround rubber "Made in Japan". It combines the precision and feel of classic allrounders with a gentle speed and catapult effect for aggressive attacking. This makes VJ>07 Regular the perfect choice for all players who try to keep control in any situation and strive to improve their own attacking skills continuously.

VJ>07 Stiff

MAX 2,0 1,8 **44,90€**

Hardness

45,0±3

■ red ■ black

SPEED	8,5
CONTROL	8,9
SPIN	8,3
TRAJECTORY	6,5
SHEET STRENGTH	6,7

VJ>07 Stiff is an innovative, well-balanced OFF rubber "Made in Japan". The combination of the new spin-oriented Japanese top sheet with the openpore, medium-hardness tension sponge makes VJ>07 Stiff the perfect weapon for modern attackers. The optimized pips geometry allows the production of great spin and provides for perfect coupling of the ball, which makes VJ>07 Stiff ideal for the new generation of balls. Benefit from excellent balance and the great combination of speed, spin and control.

VJ>07 Limber

MAX 2,0 1,8 **44,90€**

Hardness

40,0±3

■ red ■ black

SPEED	8,3
CONTROL	9,1
SPIN	8,0
TRAJECTORY	5,7
SHEET STRENGTH	6,3

VJ>07 Limber is a highly elastic OFF rubber "Made in Japan". Thanks to the new, slightly thinner pips structure, this rubber enables variable offensive playing both in close-to-the-table and in middistance rallies. The new soft tension sponge provides for great sound and excellent feel which will reduce the number of faults you produce. VJ>07 Limber is an elastic "feel-good" OFF rubber with perfect ball feedback and excellent catapult and sound effect which leaves nothing to be desired for variable topspin players.

VJC>07 Sticky Extra

MAX 2,0 1,8 **49,90€**

Hardness

47,5±3

■ red ■ black

SPEED	7,8
CONTROL	9,0
SPIN	9,0
TRAJECTORY	6,9
SHEET STRENGTH	6,7

VJC>07 Sticky Extra is a modern hybrid rubber made by VICTAS. Thanks to the new, harder Japanese sponge texture, the rubber is a perfect combination of control and speed. Hard-hit balls with great acceleration deliver tons of speed which will put your opponent under enormous pressure. The Chinese, slightly sticky top sheet of VJC>07 Sticky Extra opens up a new dimension of spin and unbelievable serve-and-return quality and control in blocking.

TRIPLE

TRIPLE Series

Chinese sticky rubber series
for modern players

In the past the Triple series from TSP was preferred by a large number of players. The VICTAS development team has now continued this success story and created the new VICTAS TRIPLE series which is tailored to the requirements of modern table tennis. Due to the extreme grip of the top sheet and the different sponge hardnesses, the new TRIPLE series from VICTAS can be played successfully by both beginners and absolute world-class players.

TRIPLE Double Extra

MAX 2,0 52,90€

Hardness	57,5±3	■ red ■ black
SPEED	8,6	
CONTROL	8,7	
SPIN	9,4	
TRAJECTORY	9,4	
SHEET STRENGTH	8,0	

TRIPLE Double Extra is a high-end rubber for high-end players! Compared to TRIPLE Extra, the new and slightly harder sponge of TRIPLE Double Extra and the ultra-tacky China-style top rubber sheet produce even more power and spin. With its hardness and tackiness, this rubber is a great alternative for players who rely on maximum spin and power.

TRIPLE Extra

MAX 2,0 48,90€

Hardness	55,0±3	■ red ■ black
SPEED	8,5	
CONTROL	8,7	
SPIN	9,2	
TRAJECTORY	7,9	
SHEET STRENGTH	7,8	

TRIPLE Extra is the perfect weapon for attackers relying on tons of spin and power. Thanks to the combination of the extra-tacky, China-style top rubber sheet and the innovative, compact and hard 55° Off sponge, top players will have everything they need for tremendous power and spin.

TRIPLE Regular

MAX 2,0 1,8 39,90€

Hardness	42,5±3	■ red ■ black
SPEED	7,6	
CONTROL	9,3	
SPIN	9,3	
TRAJECTORY	8,7	
SHEET STRENGTH	6,8	

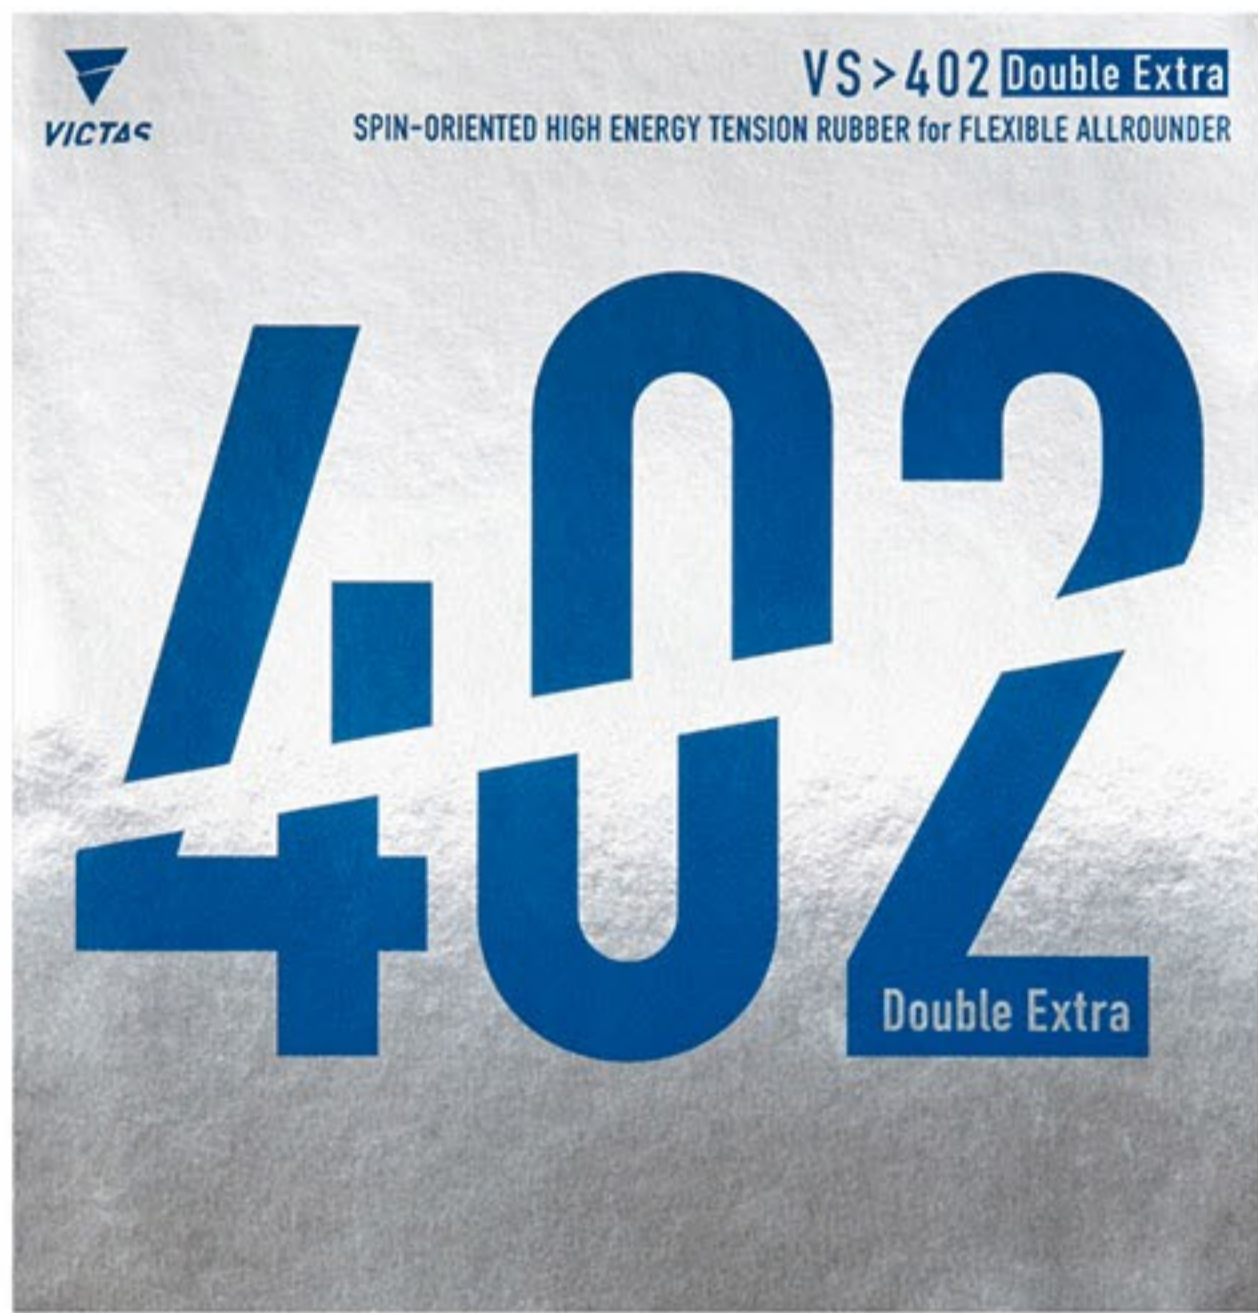

The extra-tacky, China-style top rubber sheet and the elastic sponge form the basis of this well-balanced, spin-elastic allround rubber. TRIPLE Regular features a new, open-pore sponge which provides you with enough power for spin-rich allround play.

VS > 401 / 402

VS Series

The tacky allround series with integrated „High Energy Tension“ technology

The successful VS series made by VICTAS is designed for variable and spin-oriented allround playing styles. The extremely tacky and flexible top rubber sheet virtually tacks the ball and produces fantastic spin both in topspin play and in defensive strokes with heavy backspin. All rubbers of the VS series feature „High Energy Tension“ technology which provides for more than enough speed potential for aggressive attacking strokes.

VS > 402 Double Extra

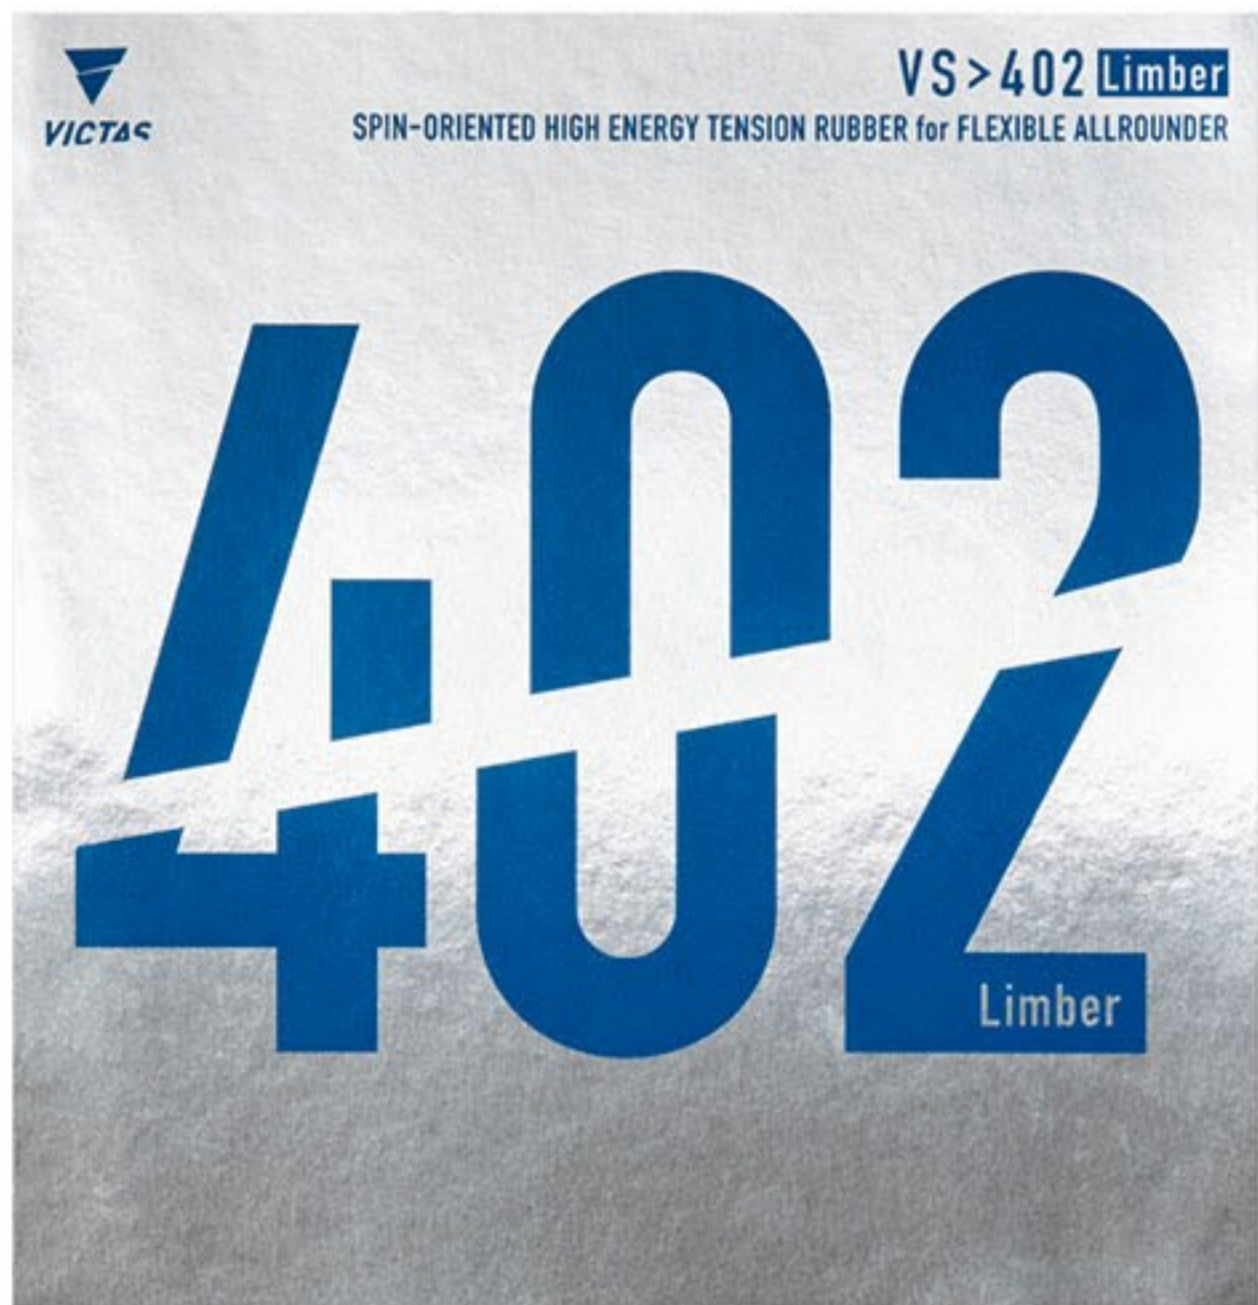

MAX 2,0 / 1,8 47,90€

Hardness 50,0±3

■ red ■ black

SPEED	7,7
CONTROL	9,1
SPIN	9,0
TRAJECTORY	7,4
SHEET STRENGTH	5,4

The VS > 402 Double Extra is a further development of the very popular VS > 401. This innovation combines the very tacky, elastic top rubber sheet with a modern, slightly harder offensive sponge. The new sponge / top rubber sheet combination makes this „High Energy Tension“ rubber the ideal weapon for any spin-oriented allrounder. The extremely tacky and flexible top rubber sheet virtually tacks the ball and produces fantastic spin both in topspin play and in defensive strokes with heavy backspin.

VS > 402 Limber

MAX 2,0 / 1,8 47,90€

Hardness 40,0±3

■ red ■ black

SPEED	7,4
CONTROL	9,3
SPIN	9,0
TRAJECTORY	6,7
SHEET STRENGTH	5,4

The VS > 402 Limber is the softest variant of the tacky VICTAS VS series. The tacky, elastic top rubber sheet was combined with the high-catapult Limber offensive sponge and opens up a new dimension of playing. With the highly tacky top rubber sheet you can put pressure on your opponents with dangerous serve / return variants and spinny topspin / backspin strokes. This unique sponge / top rubber sheet combination creates countless opportunities for flexible allrounders.

VS > 401

2,0 / 1,8 / 1,5 47,90€

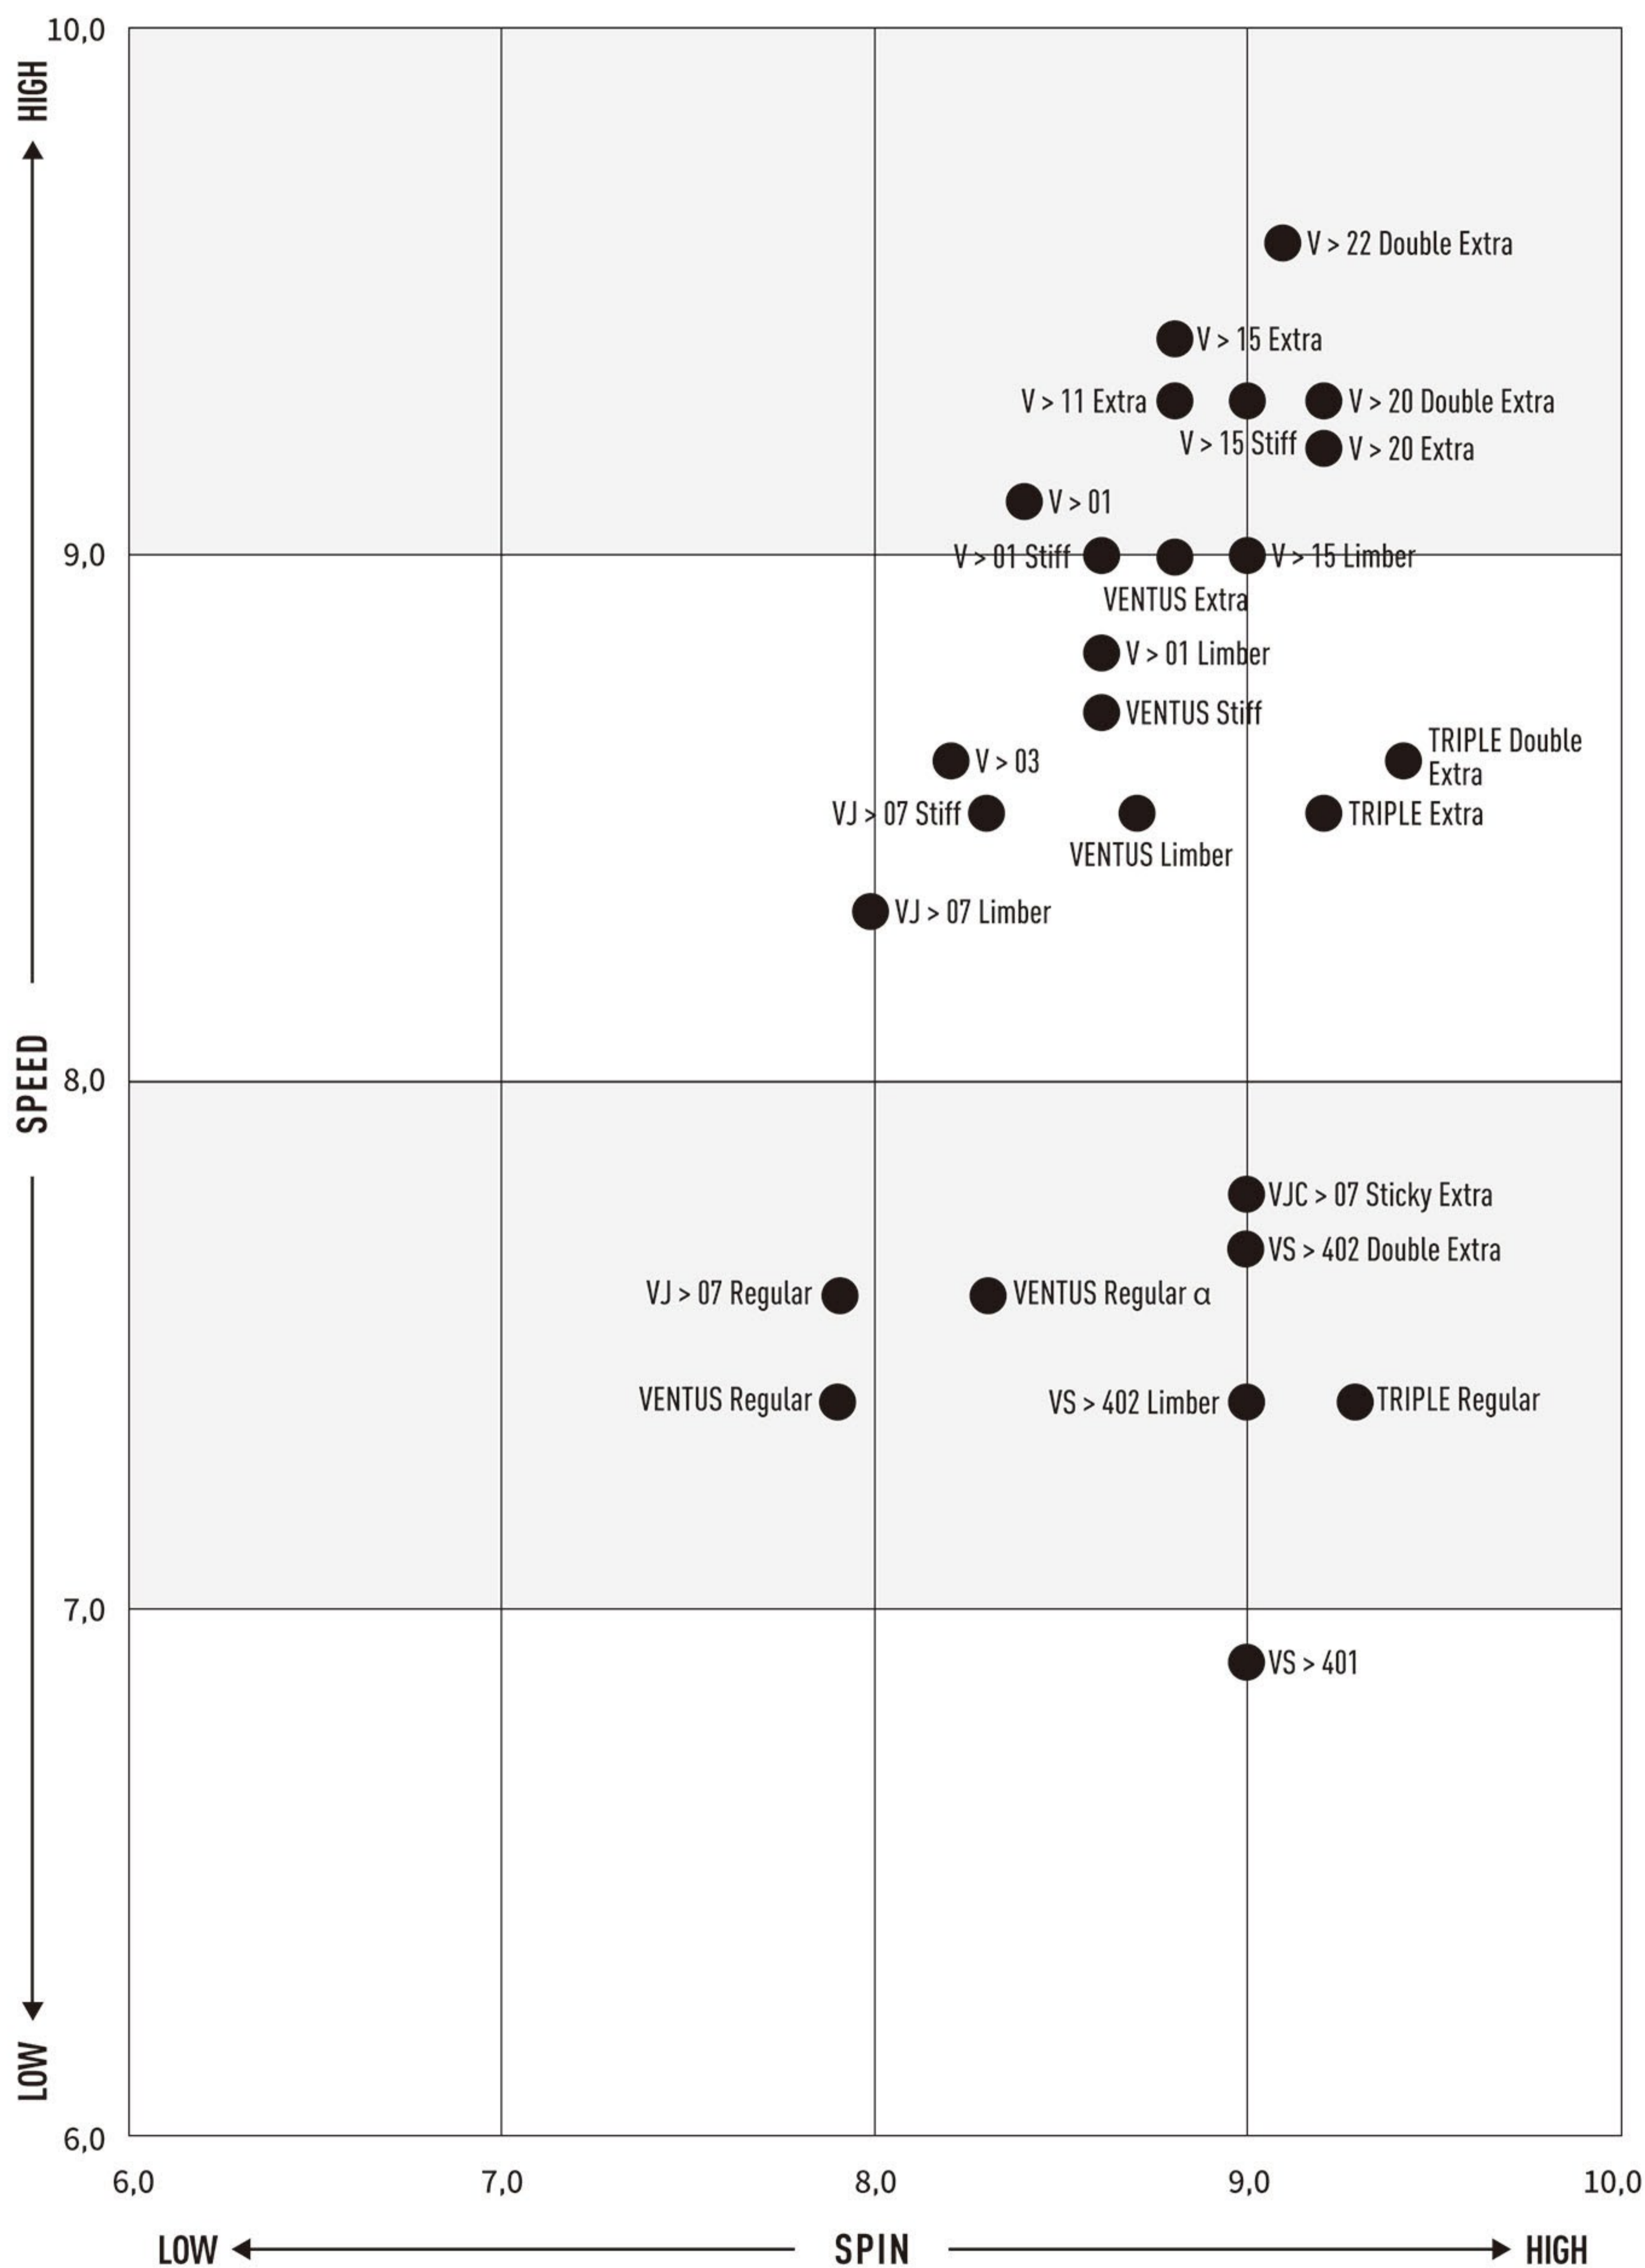

Hardness 57,5±3

■ red ■ black

SPEED	6,9
CONTROL	9,5
SPIN	9,0
TRAJECTORY	7,4
SHEET STRENGTH	5,4

The VS > 401 rubber offers the perfect balance between a tacky control rubber and a variable offensive rubber. The slightly more compact sponge neutralizes your opponent's attacks, thus providing for fantastic control. The „High Energy Tension“ top rubber sheet also offers sufficient speed for sudden and dangerous attacks. VS > 401 is the perfect tool for allrounders who need sufficient power for their own attacks in addition to great control.

RUBBER COMPARISON (PIMPLE-IN)

VO > 101 / 102 / 103

VO Series

A fast short pips-out series with integrated „High Energy Tension“ technology

The VO series from VICTAS is a series of fast short pips-out rubbers with built-in „High Energy Tension“ technology. Many decades of pips-out experience and know-how resulted in the development of this explosive rubber series. VO > 101 features rather thin pimples which will produce great pips-out effect and a flat trajectory which will put your opponent under pressure. The pips of VO > 102 are a bit wider which enables you to create your own spin variations. VO > 103 is slightly harder with a controlled balance and meets all the demands made on a state-of-the-art short pips-out OFF rubber.

VO > 101

MAX 2,0 1,8 1,6 45,90€

Hardness	37,5±3	■ red ■ black
SPEED	8,6	
CONTROL	7,7	
SPIN	7,0	
TRAJECTORY	5,0	

The VO > 101 is a very fast and dangerous short pips-out rubber with built-in „High Energy Tension“ technology. The long experience of our Japanese pips-out experts and the know-how of our German researchers (GJ Tec) resulted in a high-tech rubber which leaves nothing to be desired for aggressive pips-out attackers. The new rubber sheet with optimized pips geometry produces a great pips-out effect, and the flat trajectory of the ball will put your opponent under pressure.

VO > 102

MAX 2,0 1,8 45,90€

Hardness	37,5±3	■ red ■ black
SPEED	8,5	
CONTROL	7,8	
SPIN	7,2	
TRAJECTORY	8,5	

The geometry of the short and slightly wider pimples of this „High Energy Tension“ pips-out rubber was optimized in a way that will enable you to create your own effective spin variations. The new pips design will also provide for direct ball feedback and excellent control. With the combination of an elastic sponge, „High Energy Tension“ Technology, plus a pips-out top rubber sheet which is made for speed, VO > 102 offers playing characteristics that will be an inspiration even for absolute top players.

VO > 103

MAX 2,0 1,8 1,6 45,90€

Hardness	40,0±3	■ red ■ black
SPEED	8,2	
CONTROL	8,3	
SPIN	7,4	
TRAJECTORY	7,5	

The VO > 103 is the new benchmark for variable and dangerous short pips-out attacking! The new 40° „High Energy Tension“ offensive sponge of the VO > 103 with a fine catapult effect provides for excellent control both in attacking situations and passive play. The new pips design optimizes spin development and also produces great pips-out effect and a dangerous trajectory when blocking.

SPECTOL

SPECTOL Series

Legendary speed oriented
soft rubber-out series

SPECTOL S1 inherits the legendary Spectol which has produced numerous world champions with his fantastic spin and speed potential. The newly developed SPECTOL S2 and SPECTOL S3 complement the new SPECTOL series by providing even more speed and power thanks to the "High Energy Tension" technology. The SPECTOL S3 also has a slightly thinner pimple structure, which means that the rubber enables even higher spin variations.

SPECTOL S1

MAX 2,0 1,6 1,3 **39,90€**

Hardness
35,0±3 ■ red ■ black ■ blue

SPEED	<div style="width: 75%;"></div>	7,5
CONTROL	<div style="width: 84%;"></div>	8,4
SPIN	<div style="width: 73%;"></div>	7,3
TRAJECTORY	<div style="width: 75%;"></div>	7,5

SPECTOL S1 has been an outstanding classic for decades and is one of the most popular pips-out rubbers worldwide. It is made for uncompromising close-to-the-table players. The short, slightly tacky pimples of SPECTOL S1 enable easy "lift-loops" which makes it easy for you to alternate between passive playing and active attacking. SPECTOL S1 is an all-round pips-out rubber with just the right features for a wide variety of playing styles.

SPECTOL S2

MAX 2,0 1,6 **44,90€**

Hardness
37,5±3 ■ red ■ black ■ blue

SPEED	<div style="width: 83%;"></div>	8,3
CONTROL	<div style="width: 82%;"></div>	8,2
SPIN	<div style="width: 73%;"></div>	7,3
TRAJECTORY	<div style="width: 75%;"></div>	7,5

SPECTOL S2 is an innovative development based on the legendary SPECTOL S1. SPECTOL S2 combines the unique features of SPECTOL S1 with a new, Japanese-style Off sponge with embedded "High Energy Tension" technology. This makes SPECTOL S2 the perfect choice for players who would like to combine the special SPECTOL feeling with an extra speed booster.

SPECTOL S3

MAX 2,0 1,6 **44,90€**

Hardness

SPIN	<div style="width: 71%;"></div>	7,1
TRAJECTORY	<div style="width: 70%;"></div>	7,0

SPECTOL S3 is the latest development in the legendary SPECTOL series and is based on SPECTOL S2. SPECTOL S3 is a short high-speed pips-out rubber "Made in Japan" with embedded "High Energy Tension" technology and optimized pimple geometry. The slightly thinner pimples of SPECTOL S3 allow for even more spin variation bringing your play to the next level of variability and flexibility.

SPINPIPS

SPINPIPS Series

Legendary spin oriented
soft pips-out series

SPINPIPS D1 inherits the legendary Spinpips – one of the most famous pimple-out rubber in the world. Many top players trust in the special rotation and playing properties of the SPINPIPS top sheet. The new SPINPIPS D2 takes over this playing feeling and combines it with the “High Energy Tension” technology, which gives the D2 even more speed. The SPINPIPS D3 is the successor to the defense variant TSP Spinpips Chop II, the benchmark in the short pimple-out defense rubbers.

SPINPIPS D1

MAX 2,0 / 1,6 / 1,3 **39,90€**

Hardness
35,0±3

■ red ■ black

SPEED	7,4
CONTROL	8,6
SPIN	7,6
TRAJECTORY	9,0

SPINPIPS D1 has been an outstanding classic for decades and is one of the most popular pips-out rubbers worldwide. This legendary short pips-out rubber combines high speed ratings with surprising pips-out effect. Thanks to the elastic sponge and the short and wide pimples, SPINPIPS D1 enables dangerous spin variations at excellent control. These unique features made the SPINPIPS series so popular among top-level players.

SPINPIPS D2

MAX 2,0 / 1,6 **44,90€**

Hardness
37,5±3

■ red ■ black

SPEED	8,1
CONTROL	8,3
SPIN	7,6
TRAJECTORY	9,0

SPINPIPS D2 is an innovative development based on the legendary SPINPIPS D1. It combines the proven SPINPIPS features with “High Energy Tension” technology and, due to the new material composition, a slightly harder feel. The proven pips geometry enables SPINPIPS D2 users to produce their own spin variations for dangerous and variant-rich pips-out styles.

SPINPIPS D3

2,0 / 1,5 / 1,0 / 0,5 **39,90€**

Hardness
25,0±3

■ red ■ black

SPEED	6,7
CONTROL	9,5
SPIN	7,8
TRAJECTORY	9,0

The SPINPIPS D3 is the extremely soft defensive variant of the legendary SPINPIPS series. While the tried-and-tested pips-out rubber sheet enables defence strokes with heavy backspin, the extra-soft sponge absorbs much of the energy of your opponent's attacks, thus providing for maximum control. A pips-out rubber for modern defenders combining excellent spin characteristics with maximum control. In addition, the famous SPINPIPS rubber sheet enables sudden close-to-the-table attacks.

CURL

CURL Series

Probably the most famous long pimple-out series in the world

TSP Curl series has been loved by players all over the world as a synonym for long pimples soft rubber. The VICTAS CURL series adopts the outstanding spin and rotation potential and the proven control properties.

CURL P1V

1.5 1.0 0.5 OX 39,90€

Hardness
55,0±3

■ red ■ black

CURL P1V is the unrivalled top seller in the long pips-out segment and is used by many world-class defenders. The soft rubber composition of the long and thin pimples as well as the rough surface of the pimples of the legendary CURL P1V allow for dangerous backspin variations. These backspin variations plus maximum spin reversal are unique features of CURL P1V and the reason why CURL P1V is the first choice of top defenders around the world.

CURL P2V

1.5 1.0 0.5 39,90€

Hardness
55,0±3

■ red ■ black

The CURL P2V has the widest pimple structure of the entire CURL series. This rubber is ideal for those who not only rely on away-from-the-table chopping but also want better block and counter options close to the table.

CURL P3V

1.5 1.0 0.5 OX 39,90€

Hardness
55,0±3

■ red ■ black

CURL P3V is a long pips-out rubber with slightly shorter and wider pips. Thanks to this pimple design, CURL P3V features excellent stability and control. If you are considering switching to a long pips-out rubber, CURL P3V will be a great choice as it is easy to control and allows for occasional attacking.

	P1V	P4V	P3αV	P3V	P5V	P2V		attack-oriented	variable / controlled	spin-oriented
spin potential	10.00	9.75	9.00	8.75	8.00	7.25				
long ▶	thin	thin			thin	wide	close to the table	P2V P5V		P3V
short ▶			thin	middle wide						P3αV
							far from the table		P4V	

※ CURL P1V has the highest spin potential of all rubbers of the CURL series.
 ※ The values can be used to compare the rubbers with one another.

CURL P3αV

1.5 1.0 0.5 OX 39,90€

Hardness
55,0±3

■ red ■ black

CURL P3αV is a rubber with thin and slightly shorter long pimples. Both in close-to-the-table and in away-from-the-table situations, this rubber is made for safe and precise returning and placement. Just like CURL P1V, CURL P3αV is designed for dangerous spin variation.

CURL P4V

1.5 1.0 0.5 OX 39,90€

Hardness
20,0±3

■ red ■ black

The CURL P4V combines a pimple structure similar to the legendary CURL P1V with an extremely soft sponge. This combination provides modern defenders with everything they need to give their opponents a hard time. This high-quality rubber was developed and perfected by Koji Matsushita, one of the world's best defenders of all time.

CURL P5V

1.5 1.0 0.5 OX 39,90€

Hardness
55,0±3

■ red ■ black

The pimple structure / geometry of CURL P5V is similar to the very popular CURL P1V. Compared to other pips-out rubbers, CURL P5V has very hard pimples for maximum pressure. In blocking, flat bouncing of your blocks make it difficult for your opponents to play their next ball. Choppers also love CURL P5V for the excellent control and precision it offers.

*Please notice that there are two measurement standard for IN and OUT rubber. So please compare each rubber within the same type.

*These numerical value were checked by VICTAS Inc. The feeling will be changed depending on the blade to be bonded and the environment of use, please use it as a reference.

*Long pimple-out rubbers from the Curl series are not listed in the table.

EXPLANATION OF RUBBERS CHARACTER

Speed: Rate of change in speed before and after a collision with a rotated ball

Control: Accuracy of returning ball to the designated position for the rotated ball

Spin: Accuracy of operability when attack with top spin

Trajectory: Change in angle of incidence and reflection for the rotated ball

Sheet strength: Slip resistance against rolled ball

KOKI NIWA

KOKI NIWA Series

The blade series of the Japanese superstar.

ST

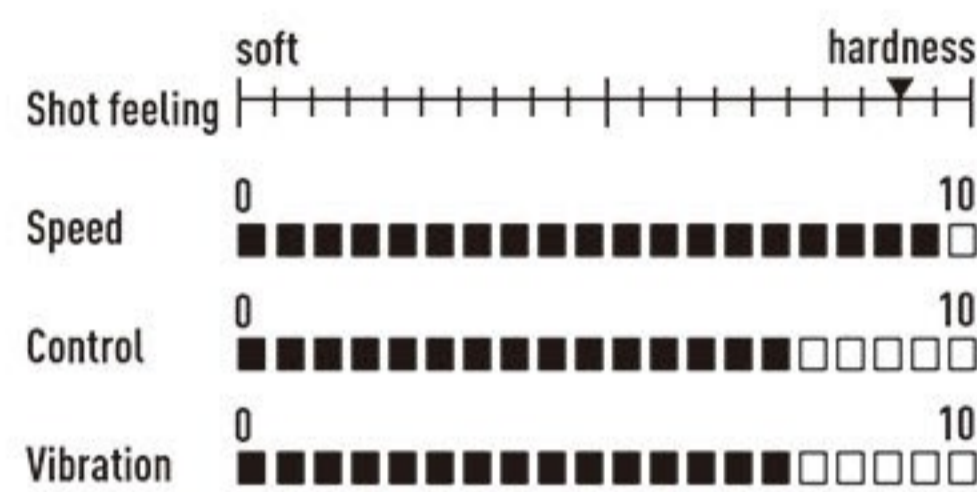

FL

KOKI NIWA ZC

249,90€

Thickness: 6,0mm Weight: 89g±

KOKI NIWA ZC is the new high-end Off blade "Made in Japan" with the new VICTAS design. Koki Niwa, one of the best and most spectacular professionals in the world, was among the major contributors in the development of this exclusive blade. The innovative and highly elastic Zexion® carbon fibre which is placed directly under the outer ply provides for a large sweet spot for more precision and control; in addition, it develops excellent power and dynamics thanks to most efficient energy transfer. The premium-quality Hinoki outer ply brings this ultimate feel and attacking power to a new level. KOKI NIWA ZC is the new Off blade benchmark and our masterpiece "Made in Japan"!

ST

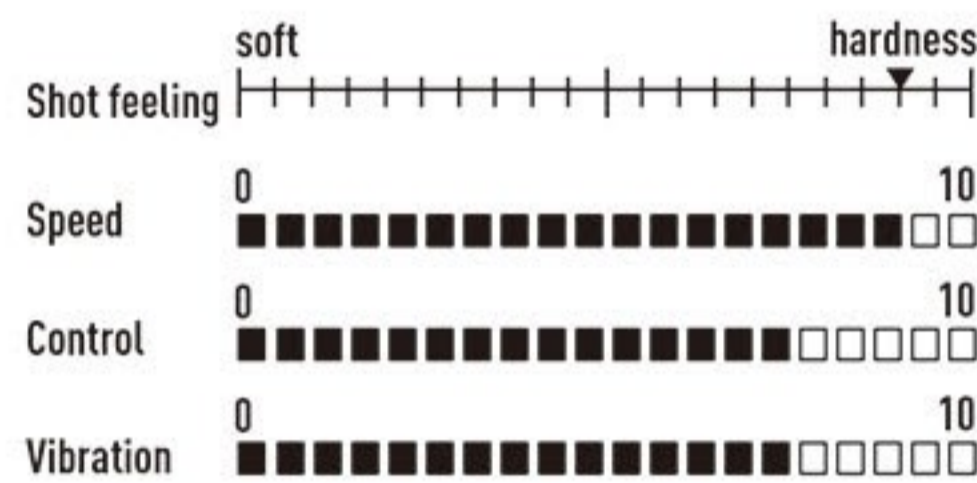

FL

KOKI NIWA WOOD

139,90€

Thickness: 5,8mm Weight: 87g±

Koki Niwa Wood is a 7-ply premium off-blade for close-to-the-table attackers. The blade of Japanese superstar Koki Niwa perfectly combines excellent feel and high speed for topspin-to-topspin rallies. Koki Niwa Wood provides any offensive players relying on power and precision with all they need for creative and successful close-to-the-table playing. The 7 fine, carefully selected veneers harmonize perfectly with hard Off rubbers, such as V > 15 Extra, and leave nothing to be desired when it comes to active power and speed based playing. An absolute masterpiece of blade design!

ST

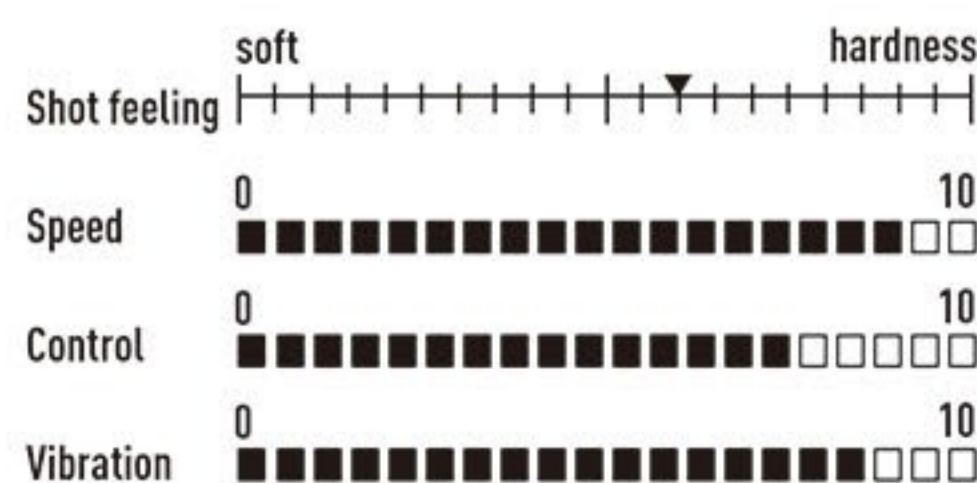

FL

KOKI NIWA

199,90€

Thickness: 5,7mm Weight: 88g±

The outstanding Japanese player Koki Niwa who has been among the world's top players for years is the leading contributor to the design of this premium product. This fine offensive blade is the perfect equipment for creative, close-to-the-table power table tennis. The innovative DSE Blade Technology featuring the two built-in synthetic High-Tech fibres optimize energy transfer into the ball. This feature enables risky counter-topspins with an aggressive trajectory and extreme spin variations in serve-and-return situations. The reinforced core ply combined with the power of the inner aramid carbon fibre is just perfect for fast mid-distance topspin rallies with optimized stability in extreme situations. The outer, very elastic Fleece Carbon provides for excellent feel and great spin development.

KOJI MATSUSHITA

KOJI MATSUSHITA Series

Koji Matsushita, the Japanese legend and one of the best defense players of all time, played a key role in the development of this blade series.

RUBBERS

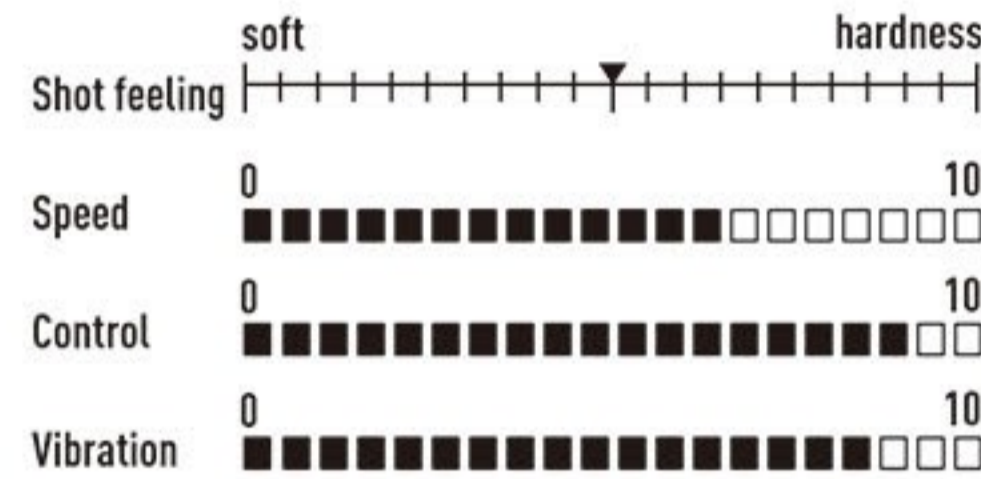

KOJI MATSUSHITA ZC

199,90€

Thickness: 5,8mm Weight: 87g±

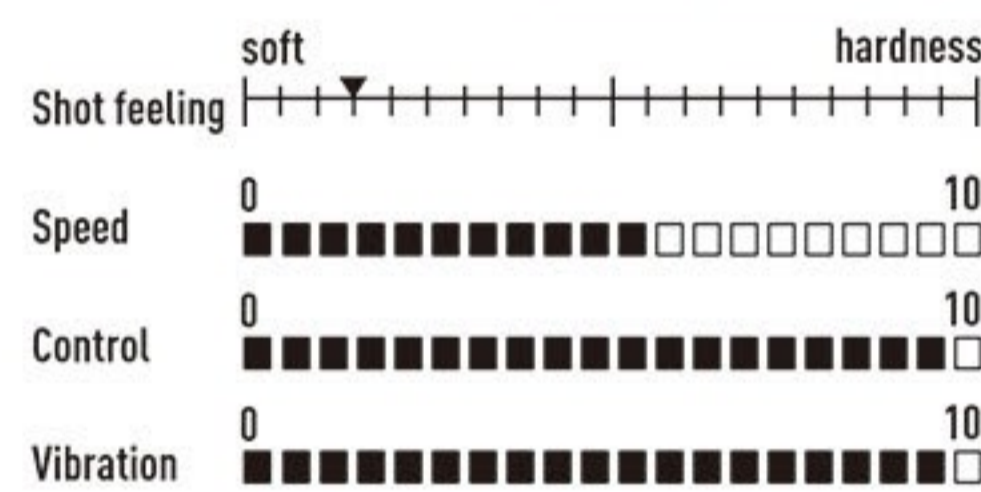

KOJI MATSUSHITA ZC is a high-speed premium defensive blade developed by the Japanese legend, Koji Matsushita. The ZC variant is the first of our defensive blades featuring the innovative Zexion® carbon fibre. This synthetic high-tech fibre which is placed directly on the core ply increases stability and control even in the most critical situations and develops enormous explosiveness and power for your own attacking. KOJI MATSUSHITA ZC, with its unrivalled features and the new VICTAS design, is the new high-end model of our popular Matsushita blade series.

KOJI MATSUSHITA

139,90€

Thickness: 5,4mm Weight: 87g±

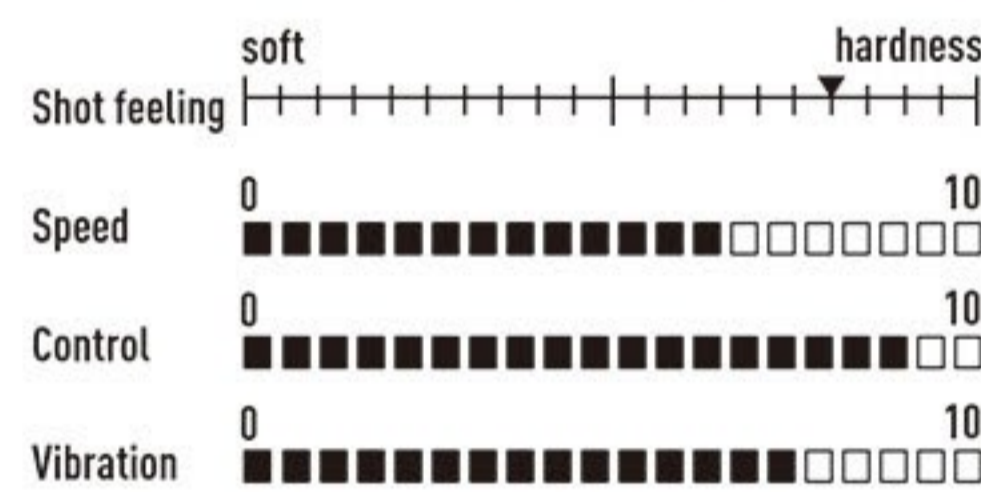

Koji Matsushita, 4-times Olympic competitor and one of the world's most famous defenders, and the VICTAS team designed a defensive blade which has everything modern defensive strategists need. The perfectly adjusted, 5-ply structure made of carefully selected veneers (including high-quality Japanese cedar fir) provides for great control in away-from-the-table defensive play and in passive above-the-table play. Modern defenders who not only rely on their defensive qualities, but use every opportunity to attack, will be inspired by the VICTAS Koji Matsushita.

KOJI MATSUSHITA OFFENSIVE

139,90€

Thickness: 6,0mm Weight: 93g±

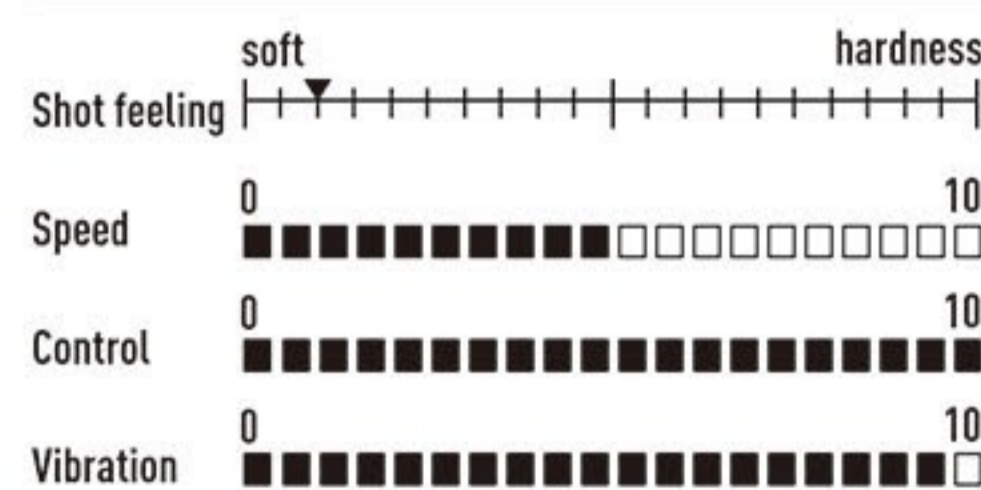

The Koji Matsushita Offensive is the ideal blade for this type of players who rely on excellent control for defensive playing, but need good speed for their own attacking. The 5-ply design with a slightly harder outer mahogany ply provides for outstanding power second-to-none in the defensive blade segment, and gives any defender all the precision and control they need for passive playing.

KOJI MATSUSHITA DEFENSIVE

139,90€

Thickness: 5,0mm Weight: 84g±

Koji Matsushita Defensive is a premium-quality, Japanese defensive blade with excellent control features. Thanks to the especially thin, 5-ply structure, the VICTAS material experts succeeded in reducing the overall weight of the Koji Matsushita Defensive to just 85g, giving the blade outstanding balance and lightness. The "Silver Heart" outer ply absorbs the speed of your opponent's attacks providing you with great feel and ball control.

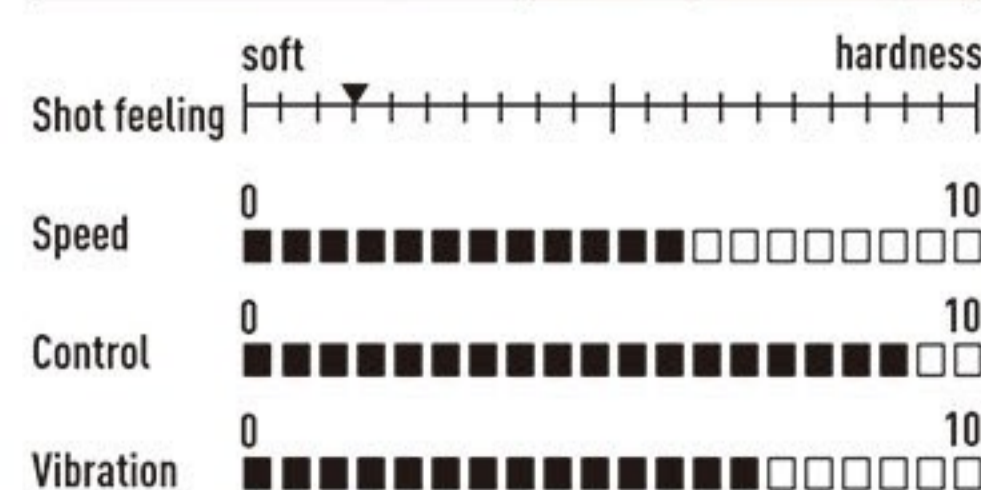

KOJI MATSUSHITA SPECIAL

139,90€

Thickness: 5,6mm Weight: 90g±

The new Koji Matsushita Special made by VICTAS combines innovative engineering with the experience and passion of the legendary Japanese defender, Koji Matsushita. Almost zero-vibration bouncing thanks to Fleece Carbon providing great advantages: Optimum control in difficult situations thanks to large sweet spot and excellent speed potential for own attacks. The aggressive trajectory and high precision of your defense will put permanent pressure on your opponent.

ZX-GEAR

ZX-GEAR Series

The innovative new Zxion carbon fiber provides for a perfect combination of great power and unbelievable control.

The new, extremely elastic Zxion carbon fiber, which was first used in the VICTAS ZX-GEAR blade series, optimizes energy transfer upon ball contact and increases flexibility and stability at the same time.

Used for the first time in table tennis blades – innovative Zxion fiber

Zxion is a very robust but also very flexible synthetic fiber used by VICTAS in the ZX-Gear series blades for the first time. Zxion features similar stability and power as Aramid, but Zxion is significantly more flexible and elastic. Thanks to these properties, the new Zxion fiber combines power and speed with great feel and ultimate flexibility.

Fiber	Stability		Elasticity	
	G·Pa	cN/dtex	G·Pa	cN/dtex
Zxion*	3.1	22.0	85.0	600
Aramid	2.9	20.3	70.5	490

*comparison of Zxion and Aramid, evaluated and tested by KB Seiren Inc.

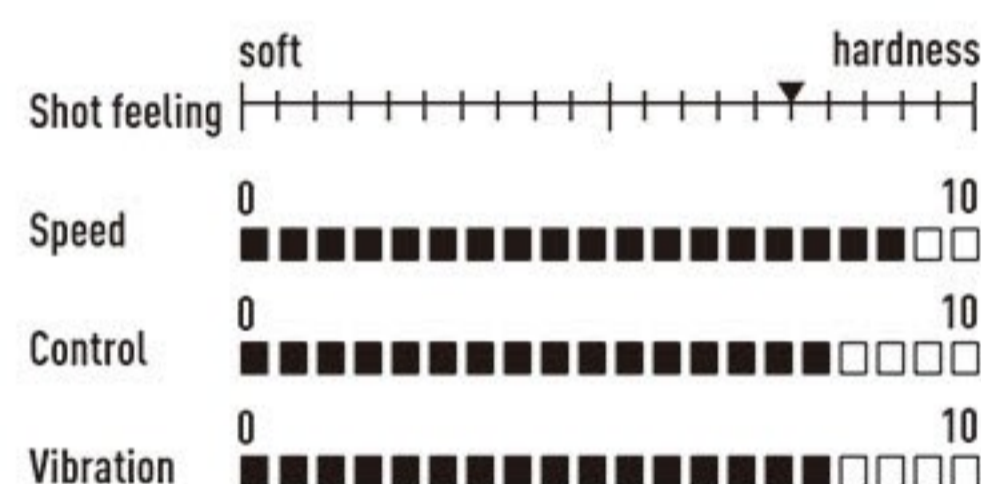

ZX-GEAR IN

149,90€

Thickness: 5,9mm Weight: 89g±

ZX-GEAR IN is a new high-control premium blade "Made in Japan". The innovative new Zxion carbon fiber which is placed directly on the core ply provides for a perfect combination of great power and unbelievable control. This highly elastic carbon fiber optimizes energy transfer upon ball contact ("Rebound Effect") and increases flexibility and elasticity of this extraordinary offensive blade at the same time. In aggressive attacks, VICTAS ZX-GEAR IN provides for both fantastic speed and spin and consistently high control.

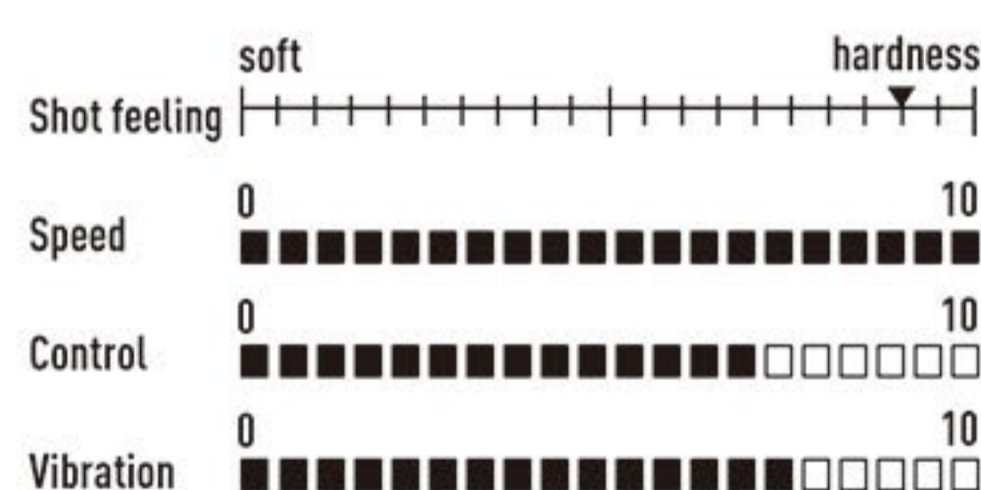

ZX-GEAR OUT

149,90€

Thickness: 5,9mm Weight: 89g±

ZX-GEAR OUT is the new Power Off premium blade "Made in Japan". The innovative new Zxion carbon fiber which is placed directly under the outer ply provides for fantastic stability and power. This highly elastic carbon fiber boosts the impact energy of the ball and increases the energy transfer upon ball contact ("Rebound Effect"). The result is a fast premium offensive blade with ultimate Sweet Spot featuring a new definition of dynamics, explosiveness and precision.

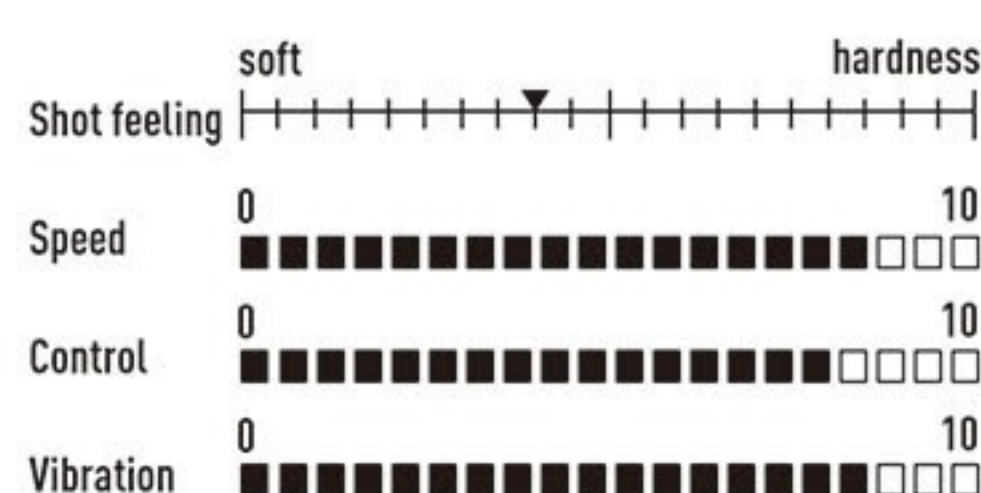

ZX-GEAR FIBER

129,90€

Thickness: 5,7mm Weight: 85g±

ZX-GEAR FIBER is the first blade on the market equipped with a completely woven new Zxion fiber. This innovative, highly elastic material provides this Japanese premium offensive blade with a soft and controlled ball contact and sensational feeling. Thanks to the optimized, well-balanced ply structure in combination with the Zxion fiber, ZX-GEAR FIBER is ideal for close-to-the-table topspin playing and opens up a whole new dimension of precision, feeling and elasticity. In mid-distance rallies, the blade gears up significantly and produces all the speed you will need for attacking.

BALSA

BALSA Series

The successor of the legendary TSP Balsa series

The heart of the VICTAS BALSA series is the middle layer. The combination of the elastic fibreglass layers with the vertical wooden fibres leads to a round and especially large hitting area (sweet spot). The result is an extremely precise bounce of the ball, free of vibration and an amazingly high rate of control at all variations. The most important feature of the Balsa System is, that the speed of the blade can be varied by adjusting the thickness of the Balsa core.

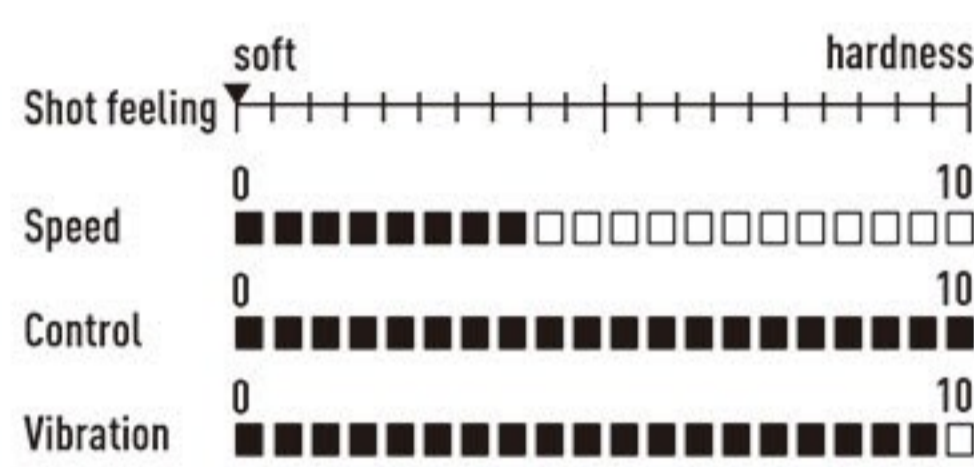

handle: FL | AN | ST

BALSA 2.5 64,90€

Thickness: 4,0mm Weight: 65g±

A defensive blade in a class of its own! With the BALSA 2.5 your defensive game will be like a wall. The 2,5 mm Balsa core veneer guarantees great control.

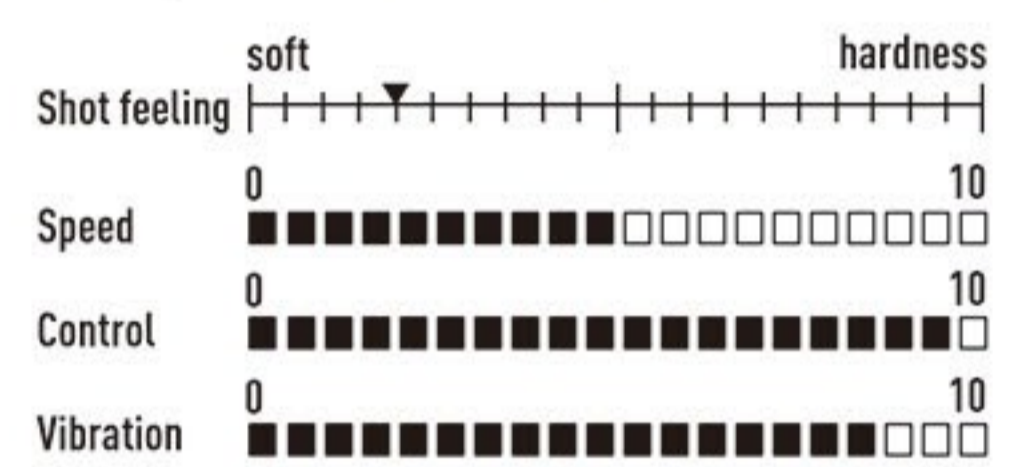

handle: FL | AN | ST

BALSA 3.5 64,90€

Thickness: 5,0mm Weight: 65g±

The BALSA 3.5 is the perfect material for the modern defensive game. Returning the strongest offensive balls will be a child's play for you. The somewhat bigger blade also supports the game. Another advantage of this blade are the precise and defensive – but also offensive shots.

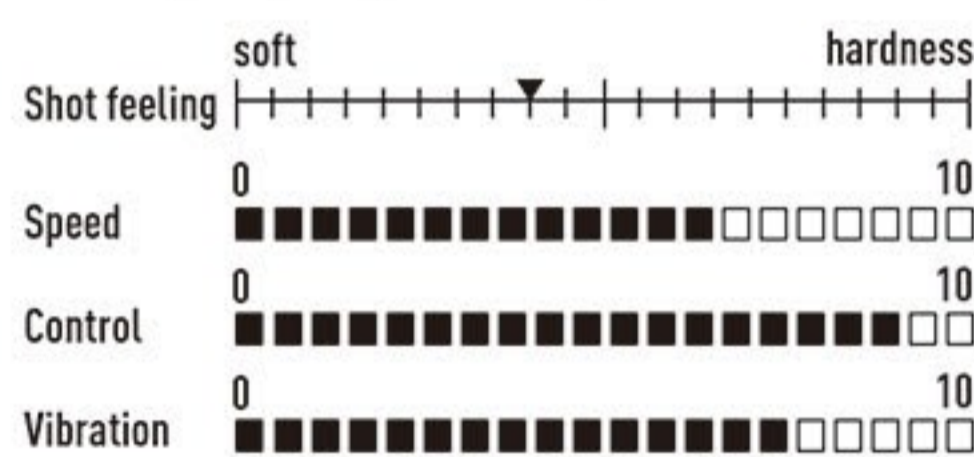

handle: FL | AN | ST

BALSA 4.5 64,90€

Thickness: 6,0mm Weight: 70g±

The perfect blade for variable allround players! Precise blocks, counters shots and chops, but also great topspins are able to be played without a problem. The BALSA 4.5 produces an ideal mixture of speed and control and gives you a great ball response.

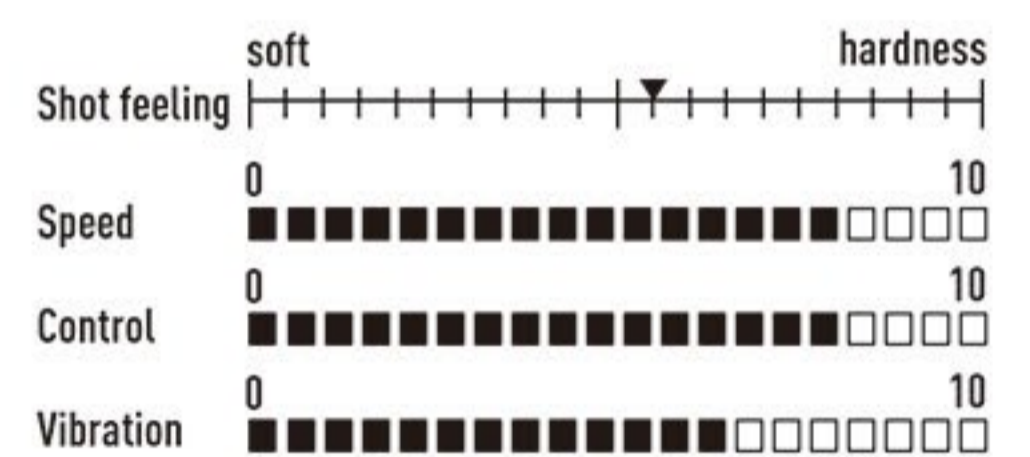

handle: FL | AN | ST

BALSA 5.5 64,90€

Thickness: 7,0mm Weight: 70g±

Ideal for players, who prefer the somewhat more controlled offensive game. The 5,5 mm Balsa core veneer ensures enough speed and pressure in your offensive shots without losing control.

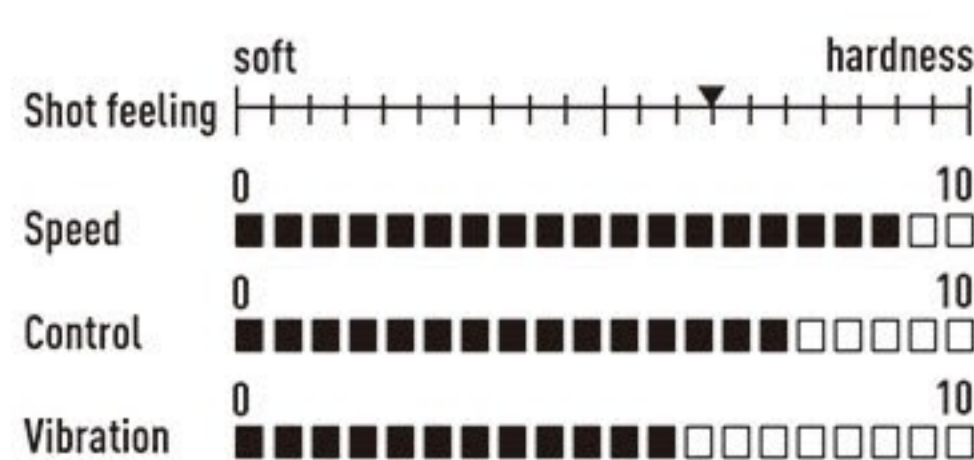

handle: FL | AN | ST

BALSA 6.5 64,90€

Thickness: 8,0mm Weight: 75g±

The BALSA 6.5 is designed for risk-taking offensive players. The 6,5 mm Balsa core veneer ensures an even faster shot and a lot of penetrating power during all offensive shots. Nevertheless the blade produces an excellent ball control.

handle: FL | AN | ST

BALSA 8.5 64,90€

Thickness: 10,0mm Weight: 75g±

BALSA 8.5 is ideal for uncompromising attackers relying on high-pressure attacking and aggressive blocking. Despite the high speed, BALSA 8.5 provides for a great feel and sufficient control.

AWARD

AWARD Series

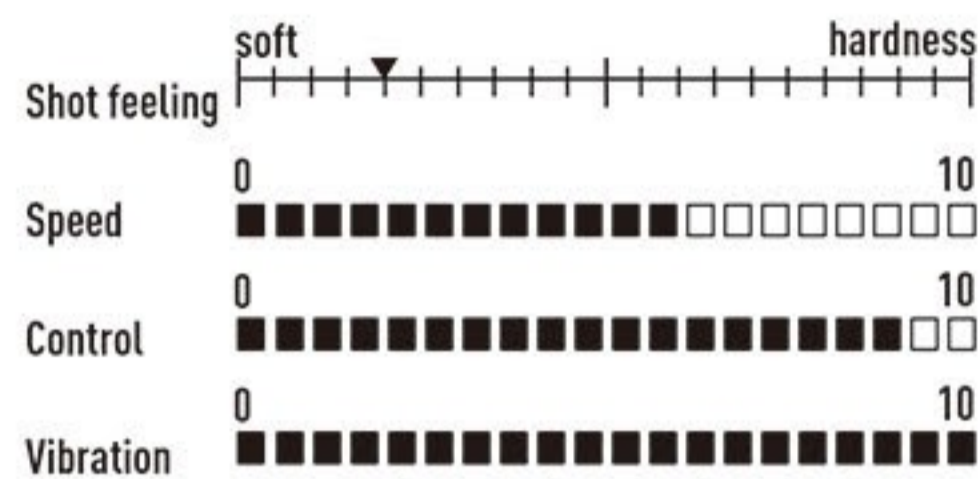

The successor of the famous TSP Reflex series

AWARD ALLROUND

44,90€

Thickness: 5,7mm Weight: 85g±

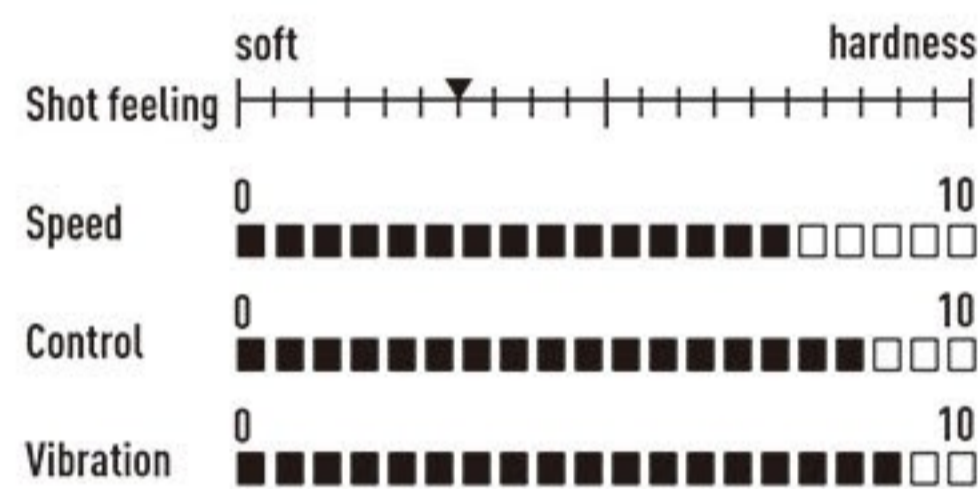

AWARD ALLROUND is an excellent blade for pressurized allround playing. It has a large potential for fast topspins as well as for passive blocking. At the same time the half Reflex dampening layers in the grip give amazing control. A perfect blade for variable allround game.

AWARD OFFENSIVE

44,90€

Thickness: 5,6mm Weight: 80g±

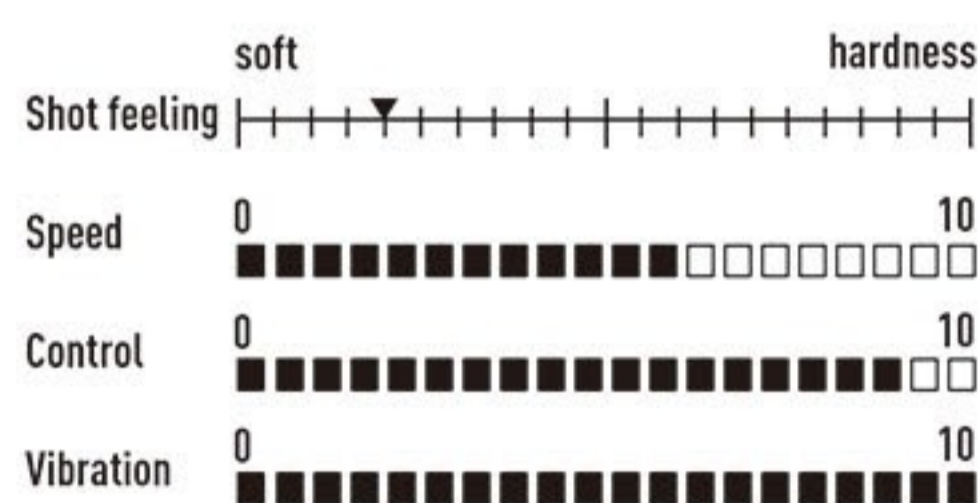

This well-balanced OFF blade with Reflex 50 absorption has become a best seller both in Europe and Japan. The 5-ply design uniquely combines speed and feel, and this is why many players rely on the great feel and extraordinary spin potential of AWARD OFFENSIVE.

AWARD ALLROUND LIGHT

39,90€

Thickness: 5,7mm Weight: 85g±

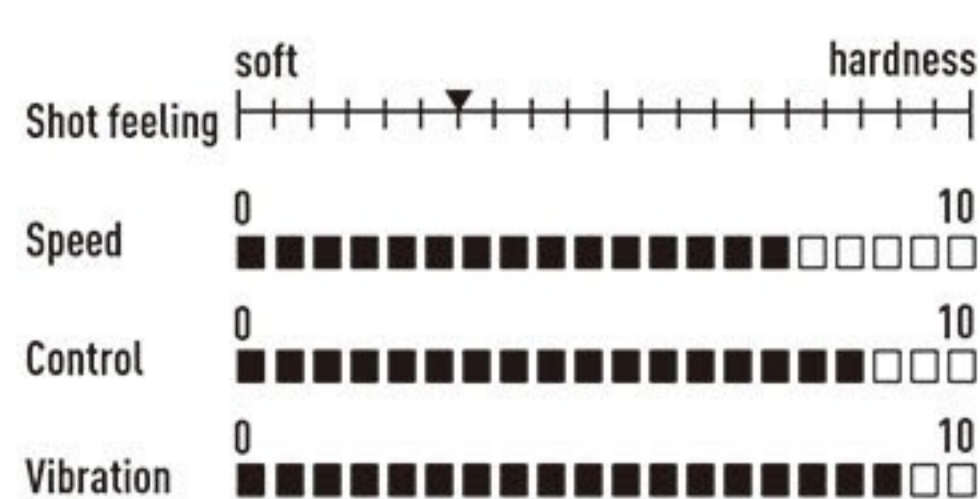

AWARD ALLROUND LIGHT is an excellent blade for pressurized allround playing. The slightly smaller handle makes the AWARD ALLROUND LIGHT the ideal choice for children and young people. It has a large potential for fast topspins as well as for passive blocking. At the same time the half Reflex dampening layers in the grip give amazing control.

AWARD OFFENSIVE LIGHT

44,90€

Thickness: 5,6mm Weight: 80g±

This well-balanced OFF blade with Reflex 50 absorption has become a best seller both in Europe and Japan. The slightly smaller handle makes the AWARD OFFENSIVE LIGHT the ideal choice for children and young people. The 5-ply design uniquely combines speed and feel, and this is why many players rely on the great feel and extraordinary spin potential of AWARD OFFENSIVE.

EURO

EURO Series

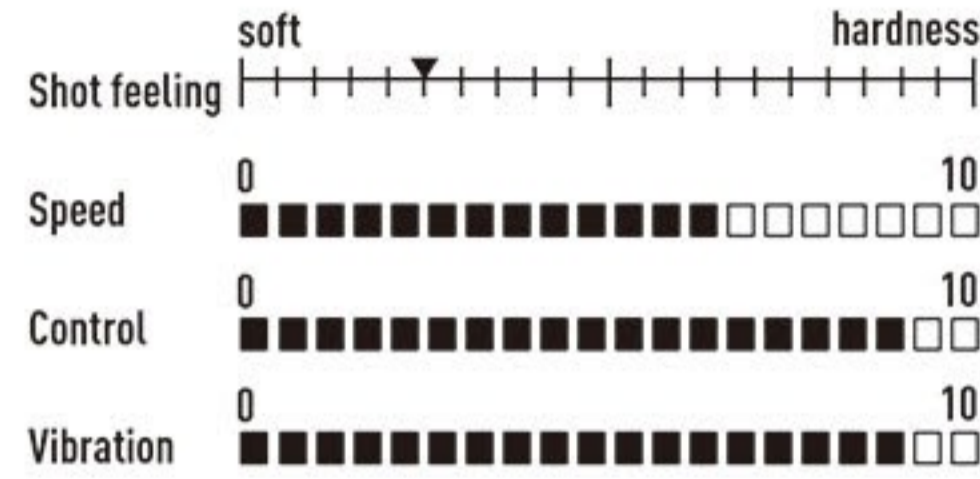

The successor of the TSP Euro series developed exclusively for Europe

EURO CLASSIC ALL+

34,90€

Thickness: 5,1mm Weight: 72g±

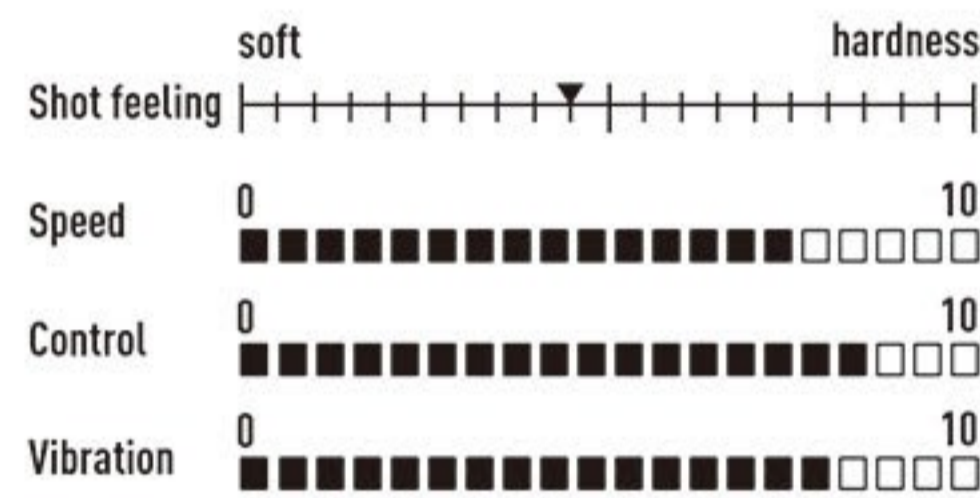

EURO CLASSIC ALL+ is a perfectly well-balanced blade for modern, variant-rich allround playing styles. This 5-ply blade is very controlled and provides the player with excellent ball-contact feedback and more precision in passive playing situations. Thanks to the excellent handling of EURO CLASSIC ALL+, you will be in full control even when attacking. The excellent cost/performance ratio and workmanship provide for a versatile allround blade.

EURO FEELING OFF-

54,90€

Thickness: 5,6mm Weight: 35g±

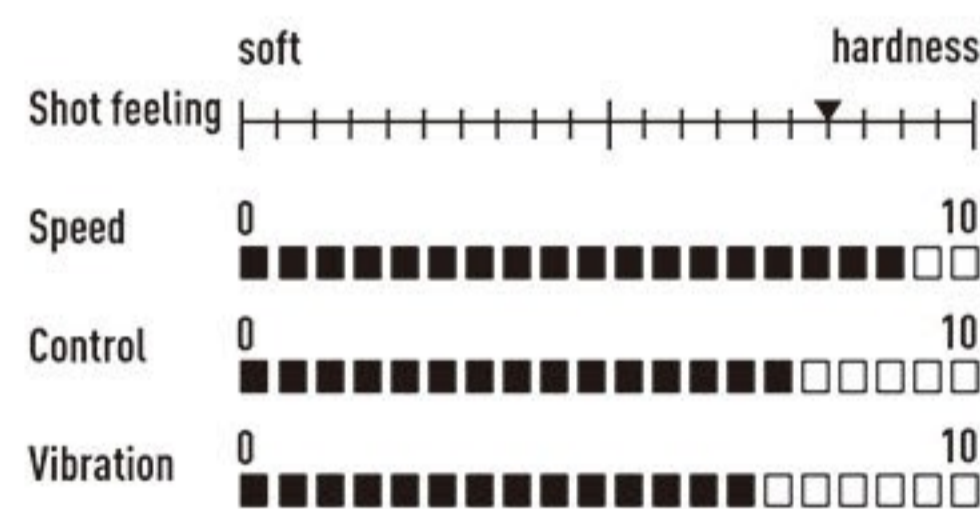

EURO FEELING OFF- is an offensive blade for variable attackers relying on great feel. It is the fine, slightly harder outer ash ply that makes the big difference of this 5-ply design: Improved energy and speed transfer in your own attacks and more stability and reliability in passive blocking/counter-attacking. The handle made from the finest "Premium Cypress" adds to the quality of this unique blade. EURO FEELING OFF- is a premium-end blade designed exclusively for the European market. It leaves nothing to be desired for any player relying on their own creativity and control when it comes to attacking.

EURO POWER OFF

69,90€

Thickness: 5,3mm Weight: 92g±

EURO POWER OFF is a 7-ply offensive blade for ambitious attackers. The classic 7-ply design is just perfect both for powerful close-to-the table and mid-distance topspin attacking. The 4 elastic outer plies provide for an improved feel and great rotation of your topspins. The 3 inner, slightly harder core plies are faster, which ideally compensates for the loss of speed due to the new polyball. The handle made from the finest "Premium Cypress" adds to the quality of this unique blade. EURO POWER OFF is a premium blade especially developed for the European market featuring excellent characteristics for attackers with a need for power.

 *The weight of the blade may vary depending on the time of year even though the same type of wood is used.

BALLS

We have been a synonym for top quality and know-how in the production of table tennis balls for more than 90 years.

Infobox

The new VP40+ competition ball has been the official ball of the Japanese T-League in the season 2020/21 and 2021/22.

Innovative material

A new, cutting-edge ABS poly-material provides for extremely consistent bouncing of the ball, precise trajectories and perfect playing features.

Excellent quality

We use state-of-the-art production processes and the experience of more than 90 years to ensure excellent quality and durability of the new VICTAS balls.

Great value for money

We are committed to supporting clubs. This is why we offer our balls with an outstanding price-performance ratio.

VP40+ COMPETITION BALLS 4,50€

ITTF approved premium competition ball made of innovative ABS poly-material. This high-tech plastic material, in combination with careful VICTAS ball selection, ensures consistent quality and improved durability of the balls. VP40+ guarantees reliable bouncing, precise trajectories and optimum hardness of the balls.

content: 3 balls
